Study plans & timetables

1. Prompt 1 — UPSC CSE Full-Year Study Plan

UPSC CSE Full-Year Study Plan Backstory: A 23-year-old graduate from Delhi has decided to appear for the UPSC Civil Services Examination for the first time. She is working part-time and can dedicate around 6–7 hours a day to preparation. She has completed basic NCERTs but struggles to organize her time across Prelims, Mains, and optional subject preparation. She wants a study plan that keeps her on track for one full year, balancing revision, mock tests, and answer writing practice. The plan should also include short daily current affairs review. Goal: **Create** a month-wise, weekly, and daily timetable for UPSC CSE preparation for one year, ensuring balanced coverage of GS, optional, and current affairs. Prompt: "**Design** a one-year UPSC CSE study plan for a working aspirant with 6–7 hours per day. **Include** month-wise and week-wise milestones, daily schedules for GS, optional subject, current affairs, answer writing, and mock tests. Ensure the plan has regular revision cycles and keeps enough buffer time for unexpected delays."

2. Prompt 2 — SSC CGL Three-Month Crash Course Timetable

SSC CGL Three-Month Crash Course Timetable Backstory: A 27-year-old candidate from Lucknow has cleared SSC CGL Tier 1 and has 3 months to prepare for Tier 2. He is good at Quant but struggles in English and General Awareness. He works 8 hours a day and studies 4 hours in the evening. He wants a plan that maximizes his strengths while improving weak areas with targeted practice. Mock tests must be part of the schedule. Goal: **Prepare** a 90-day timetable focusing on SSC CGL Tier 2 syllabus with targeted improvement in weak areas and high-scoring strategy. Prompt: "**Create** a 90-day SSC CGL Tier 2 study plan for a working aspirant with strong Quant skills but weak English and General Awareness. **Include** daily and weekly targets for each subject, mock test schedules, topic prioritization based on past papers, and a final two-week intensive revision phase."

3. Prompt 3 — State PCS Part-Time Preparation Schedule

State PCS Part-Time Preparation Schedule Backstory: A 30-year-old bank employee in Jaipur is preparing for Rajasthan Administrative Service (RAS) exam. He can dedicate only 3–4 hours on weekdays and 6–7 hours on weekends. His problem is balancing syllabus coverage with revision while keeping up with state-specific current affairs. He also needs to prepare for descriptive Mains answer writing alongside Prelims prep. Goal: **Design** a realistic timetable for a working professional preparing for RAS exam over 10 months. Prompt: "**Prepare** a 10-month RAS exam timetable for a working professional with limited weekday hours and more weekend time. **Include** state-specific current affairs, GS syllabus coverage, answer writing practice, and revision strategy, ensuring a smooth transition from Prelims to Mains preparation."

4. Prompt 4 — Railway RRB NTPC Evening-Only Study Plan

Railway RRB NTPC Evening-Only Study Plan Backstory: A 21-year-old commerce graduate in Patna is preparing for the RRB NTPC exam. He is enrolled in a morning coaching class but needs a structured evening self-study timetable. His weak areas are General Science and Current Affairs, and he wants to maximize his performance in Maths and Reasoning where he is average. Goal:

Foundation study plan for a working candidate. Prompt: "**Create** an 8-month CA Foundation preparation timetable for a working professional with limited weekday hours. **Include** topic prioritization, weekend intensive study blocks, and multiple revision cycles before the exam."

9. Prompt 9 — IBPS PO 6-Month Preparation Plan

IBPS PO 6-Month Preparation Plan Backstory: A 26-year-old graduate from Bhopal is preparing for the IBPS PO exam for the first time. She has moderate speed in Quant and Reasoning but struggles in General Awareness. She wants a plan that balances speed improvement with accuracy. Goal: Build a 6-month IBPS PO study plan focusing on balanced skill growth and practice. Prompt: "**Design** a 6-month IBPS PO preparation timetable for a first-time aspirant. **Include** daily practice sets for Quant, Reasoning, English, and GA, along with mock tests and speed-building drills."

10. Prompt 10 — NET JRF Two-Phase Preparation Schedule

NET JRF Two-Phase Preparation Schedule Backstory: A 28-year-old M.A. graduate from Kolkata aims to clear the UGC NET JRF in English Literature. She has 7 months before the exam and plans to split preparation into a learning phase and a revision phase. She struggles with Paper 1 reasoning topics. Goal: **Create** a 7-month NET JRF timetable with a structured two-phase approach. Prompt: "**Prepare** a 7-month UGC NET JRF timetable for English Literature, dividing into a learning phase and a revision phase. **Include** Paper 1 practice, past paper analysis, and Paper 2 literary theory review."

11. Prompt 11 — UPSC CSE Mains + Prelims Integrated Plan

UPSC CSE Mains + Prelims Integrated Plan Backstory: A 24-year-old postgraduate from Jaipur is preparing for the UPSC Civil Services Exam. She has already attempted once, clearing Prelims but missing Mains by a small margin. This year, she wants to integrate Prelims and Mains preparation for maximum efficiency. She struggles with Ethics (GS Paper 4) and CSAT speed. Her day is free for 10–12 hours of study, but she wants a balanced approach that avoids burnout. Goal: **Create** a 12-month UPSC integrated timetable for both Prelims and Mains with a special focus on Ethics and CSAT improvement. Prompt: "**Design** a 12-month UPSC CSE integrated timetable for a candidate who has previously cleared Prelims but struggled in Mains. **Include** GS and Optional coverage, Ethics case study practice, and CSAT speed drills while ensuring Prelims test series is incorporated without losing Mains focus."

12. Prompt 12 — SSC CGL Tier 1 + Tier 2 Combined Plan

SSC CGL Tier 1 + Tier 2 Combined Plan Backstory: A 22-year-old graduate from Lucknow is preparing for SSC CGL for the first time. He has average speed in Quant, decent English grammar skills, and good General Awareness. He is aiming for an income tax inspector post. His challenge is managing Tier 1 speed and accuracy while building Tier 2-level content mastery. Goal: Build a 9-month SSC CGL timetable integrating Tier 1 and Tier 2 prep from day one. Prompt: "**Prepare** a 9-month SSC CGL study timetable for a first-time aspirant aiming for the Income Tax Inspector role. **Include** daily practice schedules for Quant, Reasoning, and English, along with GK revision, Tier 2

topic expansion, and full-length mock tests every fortnight."

13. Prompt 13 — GATE Mechanical Engineering Crash Plan

GATE Mechanical Engineering Crash Plan Backstory: A 23-year-old final-year engineering student from Coimbatore has only 4 months left for the GATE exam. His strong subjects are Strength of Materials and Thermodynamics, but he is weak in Fluid Mechanics and Engineering Mathematics. He wants a high-intensity plan that covers weak areas while consolidating strengths. Goal: **Create** a 4-month GATE crash course timetable for maximum score improvement in Mechanical Engineering. Prompt: "Draft a 4-month GATE Mechanical Engineering preparation plan for a student with strengths in SOM and Thermodynamics but weak in Fluid Mechanics and Engineering Mathematics. **Include** weekly test series, formula revision drills, and PYQ-based topic prioritization."

14. Prompt 14 — NDA Exam Timetable for Class 12 Student

NDA Exam Timetable for Class 12 Student Backstory: A 17-year-old student from Pune in Class 12 wants to join the Indian Armed Forces via NDA. He is strong in Maths but struggles with General Ability Test (GAT) English and Current Affairs. He has board exams in March but wants to keep NDA prep running alongside. Goal: **Create** a 6-month NDA prep timetable balancing board exams and NDA syllabus. Prompt: "**Prepare** a 6-month NDA preparation timetable for a Class 12 student who is strong in Maths but weak in GAT English and Current Affairs. **Include** daily newspaper reading, English vocabulary drills, and mock tests while accommodating board exam study."

15. Prompt 15 — RBI Grade B Officer Study Schedule

RBI Grade B Officer Study Schedule Backstory: A 27-year-old economics graduate from Delhi is aiming for the RBI Grade B exam. She is comfortable with Finance and Economics but struggles in Quant and Reasoning speed. She can dedicate 6–8 hours daily and wants a systematic plan for both Phase 1 and Phase 2 preparation. Goal: **Design** a 7-month RBI Grade B integrated timetable covering both phases. Prompt: "**Create** a 7-month RBI Grade B preparation plan for a candidate strong in Finance/Economics but slow in Quant and Reasoning. **Include** daily current affairs notes, ESI and FM concept review, and a mock test schedule for both Phase 1 and Phase 2."

16. Prompt 16 — LIC AAO Exam Study Plan

Backstory: A 25-year-old commerce graduate from Indore is preparing for the LIC AAO exam to secure a stable government job. She has been out of competitive studies for 2 years while working part-time. Her strengths lie in Reasoning and English, but she struggles with Quantitative Aptitude speed and has minimal exposure to Insurance Awareness topics. She has 5 hours available on weekdays and 8 hours on weekends. Her goal is to steadily build confidence while improving accuracy in weak areas before the exam in 5 months. Goal: **Create** a 5-month study timetable that builds Quant speed, systematically covers Insurance Awareness, and maintains strengths in other subjects. Prompt: "**Prepare** a 5-month LIC AAO exam study plan for a candidate strong in Reasoning and English but weak in Quant and Insurance Awareness. **Include** topic-wise weekly targets, Insurance GK sources, and a mock test schedule with progressive difficulty."

17. Prompt 17 — CAT Exam Timetable for Working Professionals

CAT Exam Timetable for Working Professionals Backstory: A 28-year-old IT professional in Bengaluru dreams of pursuing an MBA from a top IIM. His work hours are long, leaving him only 2–3 hours on weekdays and weekends for focused preparation. He is confident in Quantitative Ability due to his engineering background but finds Data Interpretation & Logical Reasoning (DILR) extremely challenging. Past attempts at mock tests have shown poor time management and inconsistency in accuracy. He is targeting CAT in 10 months and needs a plan that fits around his demanding job schedule. Goal: Develop a 10-month CAT preparation plan with a strong DILR focus and weekend-heavy study distribution. Prompt: "**Design** a 10-month CAT exam timetable for a working professional with limited weekday hours and weekends free. **Include** targeted DILR practice sessions, Quant revision cycles, and full-length mock test simulations every 2 weeks."

18. Prompt 18 — UPSC EPFO EO/AO Exam Plan

UPSC EPFO EO/AO Exam Plan Backstory: A 26-year-old from Patna wants to join the Employees' Provident Fund Organisation through the UPSC EO/AO exam. She holds a master's degree in Economics, giving her an advantage in subject-specific knowledge. However, she struggles with General Mental Ability (GMA) speed and finds it hard to maintain a consistent current affairs routine. She has 6 months before the exam and can dedicate 6–7 hours daily. She wants a disciplined approach with strong integration of practice tests and revision. Goal: Build a 6-month plan balancing Economics revision, GMA drills, and daily current affairs. Prompt: "Draft a 6-month UPSC EPFO EO/AO exam timetable for a candidate strong in Economics but slow in GMA. **Include** daily current affairs coverage, weekly GMA timed practice, and monthly syllabus completion milestones."

19. Prompt 19 — CLAT PG Study Schedule

CLAT PG Study Schedule Backstory: A 23-year-old law graduate from Hyderabad is aiming for CLAT PG to enter an NLU for her LLM. She has solid Constitutional Law knowledge but is weak in Company Law and Jurisprudence, which are heavily weighted in the paper. She also struggles with remembering landmark judgments. She has 8 months until the exam and prefers to study in early mornings and evenings. She wants a plan that helps her tackle weak areas without losing touch with her strong subjects. Goal: **Create** a balanced 8-month CLAT PG plan covering all subjects with judgment revision cycles. Prompt: "**Create** an 8-month CLAT PG preparation plan for a law graduate strong in Constitutional Law but weak in Company Law and Jurisprudence. **Include** weekly landmark judgment reviews, monthly mock tests, and legal current affairs updates."

20. Prompt 20 — IBPS PO Prelims + Mains Combined Plan

IBPS PO Prelims + Mains Combined Plan Backstory: A 24-year-old BBA graduate from Nagpur is attempting IBPS PO for the first time. She excels in English Language but faces issues with Quant speed and struggles to retain General Awareness for Mains. She understands that preparing for Mains alongside Prelims is essential to avoid last-minute rush. She has 6 months before the exam and can give 5 hours daily. She wants an integrated approach that builds foundation early and

intensifies with mocks closer to the exam. Goal: **Design** a 6-month plan integrating Prelims and Mains preparation. Prompt: "**Design** a 6-month IBPS PO study plan integrating Prelims and Mains preparation. **Include** daily Quant drills, weekly GA quizzes, and descriptive writing practice for Mains along with sectional tests."

21. Prompt 21 — State PSC Exam Plan (MPPSC)

State PSC Exam Plan (MPPSC) Backstory: A 25-year-old aspirant from Bhopal is preparing for the MPPSC exam. He has excellent knowledge of MP-specific history and culture but is weak in Science & Technology topics. He has failed once due to lack of consistent revision. He wants a plan that equally balances state-specific and general syllabus while ensuring periodic revisions and test practice. With 9 months before the next attempt, he can give 6–7 hours daily. Goal: Build a state-focused PSC study timetable that plugs knowledge gaps. Prompt: **"Prepare** a 9-month MPPSC timetable covering MP-specific topics, General Studies, and Science & Technology. **Include** weekly state current affairs updates, monthly test series, and dedicated revision weeks."

22. Prompt 22 — UGC NET Commerce Timetable

UGC NET Commerce Timetable Backstory: A 27-year-old assistant professor from Chandigarh wants to clear UGC NET Commerce to qualify for a PhD and higher pay scale. She has strong Accounting skills but struggles with Research Aptitude and lacks time due to teaching commitments. She can only study 2 hours on weekdays and 6 hours on weekends. She has 5 months until the exam and needs a compact yet comprehensive study plan. Goal: **Design** a part-time study timetable for UGC NET Commerce. Prompt: "Draft a 5-month UGC NET Commerce study timetable for a lecturer strong in Accounting but weak in Research Aptitude. **Include** daily micro-study slots, weekend mock tests, and focused research methodology drills."

23. Prompt 23 — RRB NTPC Exam Study Plan

RRB NTPC Exam Study Plan Backstory: A 23-year-old graduate from Kanpur is preparing for the RRB NTPC exam to secure a railway job. He is strong in General Awareness but weak in Mathematics and Reasoning. He can dedicate 4–5 hours daily and prefers solving problems in a timed environment. He has 6 months before the exam and wants to gradually increase his mock test frequency. Goal: **Create** a timetable focused on boosting Quant and Reasoning speed. Prompt: **"Prepare** a 6-month RRB NTPC timetable focusing on improving Quant and Reasoning while maintaining GA revision. **Include** sectional tests twice a week and monthly full-length mocks."

24. Prompt 24 — Judiciary Exam (Delhi) Timetable

Judiciary Exam (Delhi) Timetable Backstory: A 24-year-old law graduate from Delhi is aiming for the Delhi Judicial Service Exam. She is confident in Civil Law but has gaps in Criminal Law and Procedural Laws. She wants to cover all bare acts thoroughly and practice past papers regularly. With 12 months before the exam, she can devote 8 hours daily. Goal: Build a year-long judiciary exam study timetable. Prompt: "**Create** a 12-month Delhi Judicial Service exam study plan covering Civil, Criminal, and Procedural laws. **Include** daily bare act reading, weekly answer writing practice, and monthly mock tests with case law analysis."

25. Prompt 25 — NEET-UG Repeat Year Timetable

NEET-UG Repeat Year Timetable Backstory: A 19-year-old from Kochi is repeating NEET after scoring 580 in her first attempt. She is very strong in Biology and Chemistry but weak in Physics problem-solving speed. She wants a highly disciplined 12-month plan to target a government medical seat. She can dedicate 10–12 hours daily and wants Physics as a daily priority while keeping Biology revision frequent. Goal: **Create** a Physics-focused NEET repeat-year study schedule. Prompt: "**Design** a 12-month NEET preparation timetable for a repeater strong in Biology and Chemistry but weak in Physics. **Include** daily Physics drills, weekly full-syllabus mocks, and targeted concept-revision cycles."

Policy analysis summaries

26. Prompt 1 – Summarising a Government Policy on Electric Vehicle Subsidies

– Summarising a Government Policy on Electric Vehicle Subsidies Backstory: A Bengaluru-based startup is entering the electric scooter market in Karnataka. The state has announced new subsidies under the FAME II scheme and additional state-level incentives. The full notification is over 40 pages and written in dense bureaucratic language. The founders need a clear, investor-friendly summary to understand subsidy eligibility, application process, and limitations, so they can align production targets and pricing strategy accordingly. They also want a quick comparative note on how Karnataka's policy differs from Maharashtra's EV policy. Goal: **Create** a 2-page, plain-English summary of the Karnataka EV subsidy policy, highlighting eligibility criteria, benefits, application process, compliance requirements, and key differences from Maharashtra's policy. Prompt: "**You are** a public policy analyst. Summarise the Karnataka EV subsidy notification into an investor-friendly brief. **Include:** Eligibility criteria for manufacturers and buyers Subsidy amounts and calculation method Application process with timelines Compliance and reporting obligations Key differences from Maharashtra's EV policy Present in bullet points for easy reading." Inputs: Full policy document (PDF or link) Target audience (investors, internal strategy team) Comparator policy (if applicable)

27. Prompt 2 – Analysing a State Agricultural Loan Waiver Policy

– Analysing a State Agricultural Loan Waiver Policy Backstory: A farmers' cooperative in Vidarbha, Maharashtra, is trying to guide members on the recently announced agricultural loan waiver scheme. The scheme covers certain types of loans up to a specified amount, but there are conditions on eligibility, proof, and time of loan issuance. The cooperative's president has the 25-page government resolution but needs a clear explanation for farmers with limited literacy, using simple Marathi terms. They also want a visual chart to show who qualifies and who doesn't. Goal: Break down the loan waiver policy into a simple, farmer-friendly guide with examples, eligibility flowchart, and application checklist. Prompt: "**You are** a rural policy communication specialist. **Create** a farmer-friendly guide for the Maharashtra loan waiver scheme. **Include:** Eligibility conditions in simple terms Types of loans covered and their limits Step-by-step application process with required documents Example cases of eligible and non-eligible farmers A flowchart showing

strategic brief. Prompt: "**You are** an education policy analyst. **Create** a NEP 2020 strategic summary for an EdTech startup. **Include:** Key reforms impacting digital education Opportunities for public-private partnerships Teacher training and digital tools adoption areas Skill development integration possibilities Regulatory considerations for operating in schools Present in bullet points with an action plan for product alignment." Inputs: NEP 2020 official document EdTech product description and target audience State-level education department variations

31. Prompt 6 – Summarising the Draft Data Protection Bill for Startup Founders

– Summarising the Draft Data Protection Bill for Startup Founders Backstory: A group of SaaS startup founders in Bengaluru have received queries from investors about their compliance readiness for the proposed Data Protection Bill in India. The bill covers rules on user data storage, cross-border data transfer, and penalties for breaches. Founders are worried about how these regulations will impact product design, server location, and marketing activities. They want a concise, business-friendly interpretation that helps them prepare before the law is passed. Goal: **Create** a startup-oriented summary of the Data Protection Bill highlighting compliance requirements and operational impact. Prompt: "**You are** a legal policy consultant for startups. Summarise the draft Data Protection Bill in India for SaaS founders. **Include:** Key provisions affecting data collection and storage Rules on cross-border data transfers User consent and data rights explained simply Fines and penalties for non-compliance Immediate product and infrastructure adjustments to consider **Provide** a 1-page actionable compliance roadmap." Inputs: Latest draft of the Data Protection Bill Startup's target audience and data flow model Current hosting/server setup

32. Prompt 7 – Interpreting an RBI Circular on Digital Lending Norms

– Interpreting an RBI Circular on Digital Lending Norms Backstory: A mid-sized NBFC offering digital loans in Tier-2 cities needs to update its operations after a recent RBI circular on digital lending norms. The circular mandates changes to how lenders communicate terms, disclose charges, and handle repayment collections. The NBFC's compliance team is struggling to interpret the operational implications for its existing mobile app and agent network. They want a clear, lender-focused breakdown that they can share with product, tech, and collections teams. Goal: Convert the RBI circular into an operational implementation guide for digital lenders. Prompt: "**You are** a financial policy translator for NBFCs. Break down the RBI's latest circular on digital lending norms into: Summary of each key rule and its rationale Changes required in mobile app workflows Updates to loan agreement templates Adjustments for on-field agent scripts Compliance deadlines and penalties **Create** a checklist for each department to follow." Inputs: RBI circular document Current loan disbursement and repayment process flow Details of digital channels used

33. Prompt 8 – Analysis of India's National Education Policy (NEP) 2020 for State-Level Implementation

– Analysis of India's National Education Policy (NEP) 2020 for State-Level Implementation Backstory: The Education Department in a southern Indian state is planning reforms to align its school curriculum with the NEP 2020 guidelines. However, many district officers and school administrators are unclear about the phased rollout and the exact changes needed in pedagogy, assessments, and teacher training. The department needs a clear policy summary tailored for

state-level execution, highlighting actionable steps for government and private schools alike. Goal: Summarise NEP 2020 with a focus on state-level policy implementation and timelines. Prompt: "You are an education policy expert. Summarise the NEP 2020 in a way that guides state education boards to implement it effectively. **Include**: Core changes in curriculum, pedagogy, and assessment Teacher training and qualification requirements Infrastructure and digital learning mandates Phased rollout plan with key deadlines **Provide** a table mapping NEP provisions to state-level action points." Inputs: NEP 2020 document State education board's current curriculum plan Available budget and teacher capacity

34. Prompt 9 – Simplified Summary of India’s New Labour Codes for Factory Owners

– Simplified Summary of India's New Labour Codes for Factory Owners Backstory: A manufacturing association representing 150 small and medium-sized factories in Gujarat has been receiving mixed interpretations of the new Labour Codes. Factory owners want clarity on wages, working hours, safety compliance, and employee benefits, especially for contract workers. Without clear guidance, they risk penalties or labour disputes. Goal: **Create** a plain-language interpretation of the new Labour Codes for SME factory owners. Prompt: "You are an industrial relations consultant. **Create** a simple, actionable summary of India's new Labour Codes for SME factory owners. Cover: Changes in wage calculation and payment schedules Revised safety and working hour norms Employee benefits for contract and full-time workers Penalties for non-compliance **Include** a compliance checklist with deadlines." Inputs: Labour Codes documents Current employee policy handbook Factory workforce size and structure

35. Prompt 10 – GST Policy Amendments for Small Traders

– GST Policy Amendments for Small Traders Backstory: In early 2025, the GST Council announced several changes impacting small traders, particularly those operating under the composition scheme. Many small shopkeepers and local traders in Tier-2 and Tier-3 cities are struggling to understand how these changes affect their tax filing process, input credit eligibility, and compliance costs. There's a pressing need for a concise, easy-to-understand summary tailored to this demographic. Goal: Summarise the latest GST policy amendments in plain language for small traders. Prompt: "You are a tax policy expert. Summarise the 2025 GST policy amendments for small traders. Cover: Key changes in tax rates, return filing, and thresholds Impact on composition scheme and input credit Compliance timelines and penalties Example calculations for common scenarios **Include** a visual table showing old vs. new provisions." Inputs: Latest GST amendment notification Trader's annual turnover Existing GST compliance process

36. Prompt 11 – Public Distribution System (PDS) Reform Analysis

– Public Distribution System (PDS) Reform Analysis Backstory: The central government has rolled out a digitisation initiative to improve transparency and reduce leakage in the PDS. State governments need to understand how to integrate biometric verification, digital ration cards, and real-time stock monitoring into their systems. Many district-level officers are seeking a clear operational summary to avoid disruptions in ration delivery. Goal: **Provide** a reform-focused analysis of the digitised PDS system for state-level adoption. Prompt: "You are a public policy analyst. Summarise the new PDS digitisation reforms for state and district-level officers. **Include**:

Objectives and benefits of the reform Required infrastructure and technology Changes in beneficiary verification process Challenges and mitigation strategies Phased rollout guidelines" Inputs: Official PDS reform policy document Current PDS operational flow in the state Beneficiary database size

37. Prompt 12 – Policy Impact Review of India's EV Subsidy Scheme

– Policy Impact Review of India's EV Subsidy Scheme Backstory: The Indian government has revised its FAME-II electric vehicle subsidy scheme, reducing incentives for certain models while promoting electric two-wheelers and public transport. EV startups and dealerships are concerned about the shift in demand patterns and need an impact analysis to guide their sales and marketing strategies. Goal: Analyse the revised EV subsidy scheme and its potential impact on the Indian market. Prompt: "**You are** an automotive policy consultant. **Provide** a detailed impact analysis of the revised FAME-II EV subsidy scheme. **Include**: Key subsidy changes for each vehicle category Market segments most affected Potential impact on sales trends in Tier-1 and Tier-2 cities Recommendations for dealers and startups" Inputs: Latest FAME-II amendment document Company's current EV product portfolio Sales data from past two years

38. Prompt 13 – Agricultural MSP Policy Brief for Farmer Cooperatives

– Agricultural MSP Policy Brief for Farmer Cooperatives Backstory: The government has announced revised Minimum Support Prices (MSP) for several crops ahead of the upcoming harvest season. Farmer cooperatives in Punjab and Haryana are confused about how these rates compare with previous seasons and how to adjust their planting decisions accordingly. Goal: Summarise MSP policy changes and suggest planning strategies for farmers. Prompt: "**You are** an agricultural economist. **Prepare** a simple policy brief on the latest MSP changes for farmer cooperatives. Cover: Revised MSP rates for major crops Comparison with previous year's rates Market trends and price forecasts Recommendations on crop selection and storage" Inputs: MSP announcement document Current crop patterns in the region Storage and distribution capabilities

39. Prompt 14 – Cybersecurity Guidelines for Government Departments

– Cybersecurity Guidelines for Government Departments Backstory: In response to rising cyberattacks, the Ministry of Electronics and IT has issued updated cybersecurity guidelines for all central and state government departments. These include stricter password protocols, multi-factor authentication, and regular vulnerability assessments. Many local IT officers lack clarity on implementation priorities. Goal: Summarise and operationalise the updated cybersecurity guidelines for government use. Prompt: "**You are** a cybersecurity policy advisor. Summarise the updated government cybersecurity guidelines in an actionable format. **Include**: New password and authentication requirements Data storage and backup protocols Incident reporting processes Training and awareness measures for staff" Inputs: Cybersecurity guidelines document Department's current IT security setup Staff size and skill level

40. Prompt 15 – Rural Healthcare Policy Implementation Challenges

– Rural Healthcare Policy Implementation Challenges Backstory: The National Health Mission has expanded rural healthcare programs, introducing telemedicine, mobile diagnostic units, and additional funding for primary health centres. However, district-level health officers in remote areas often face challenges with internet connectivity, staff shortages, and lack of awareness among rural populations. A well-structured summary could help them adapt the policy effectively without losing its intended benefits. Goal: Summarise the rural healthcare policy and highlight practical implementation steps for low-resource areas. Prompt: "**You are** a healthcare policy analyst. Summarise the updated rural healthcare initiatives under the National Health Mission for district-level officers. **Include:** New facilities and funding provisions Technology integration requirements Strategies for low-connectivity regions Training and awareness-building methods" Inputs: Official NHM update document Local infrastructure report Staff availability data

41. Prompt 16 – Digital Education Policy for Government Schools

– Digital Education Policy for Government Schools Backstory: The Ministry of Education has launched a nationwide digital learning initiative, providing e-content, tablets, and teacher training to government schools. While urban schools adapt quickly, rural and semi-urban schools struggle due to limited electricity and bandwidth. Teachers require clear guidelines on how to blend traditional teaching with new digital resources. Goal: Translate the digital education policy into an actionable plan for government school teachers. Prompt: "**You are** an education policy expert. Summarise the government's digital education initiative for teachers in rural and semi-urban government schools. **Include:** Available e-content and resources Device distribution and maintenance Hybrid teaching strategies Offline learning solutions for low-bandwidth areas" Inputs: Digital education policy document Current school resource inventory Teacher training schedules

42. Prompt 17 – Smart City Mission Policy Update

– Smart City Mission Policy Update Backstory: The Smart City Mission has entered its second phase, focusing on renewable energy, intelligent traffic systems, and integrated waste management. Municipal corporations in smaller cities often lack in-house expertise to translate these policies into actionable urban planning steps. A concise, implementation-ready brief could bridge this gap. Goal: Summarise the Smart City Mission Phase-2 guidelines for municipal planners. Prompt: "**You are** an urban policy consultant. Summarise the Smart City Mission Phase-2 guidelines for municipal planning teams. **Include:** New focus areas and funding allocations Recommended infrastructure projects Technology integration priorities Citizen engagement requirements" Inputs: Smart City Mission Phase-2 policy City's current infrastructure plan Budget allocation details

43. Prompt 18 – Renewable Energy Policy for State Governments

– Renewable Energy Policy for State Governments Backstory: India's renewable energy targets have been revised to accelerate solar and wind installations, with state governments receiving performance-linked incentives. However, states with limited renewable infrastructure face challenges in scaling up quickly while maintaining grid stability. Policymakers need a clear, state-specific execution guide. Goal: Summarise the updated renewable energy policy for state-level adaptation. Prompt: "**You are** an energy policy specialist. Summarise the national renewable energy policy for state governments. **Include:** New targets and timelines Available

incentives and funding Integration with state power grids Recommendations for rapid project deployment" Inputs: Renewable energy policy document State's current energy mix Available land and resources

44. Prompt 19 – Urban Housing Policy Review

– Urban Housing Policy Review Backstory: The Pradhan Mantri Awas Yojana (PMAY) has been extended with revised income eligibility criteria and an emphasis on green building designs. State housing boards need a comparative analysis of old and new guidelines to adjust application processes and outreach campaigns. Goal: Compare old and new PMAY guidelines for housing boards. Prompt: "**You are** a housing policy analyst. **Create** a comparative review of PMAY's revised guidelines for state housing boards. **Include**: Changes in income eligibility and subsidy rates New green building requirements Impact on urban vs. rural applicants Updated application and approval processes" Inputs: PMAY guideline documents (old and new) Housing board application data Local construction practices

45. Prompt 20 – Disaster Management Policy for Coastal States

– Disaster Management Policy for Coastal States Backstory: With rising sea levels and increased cyclone frequency, the National Disaster Management Authority (NDMA) has revised its disaster preparedness guidelines for coastal states. The new framework includes early warning systems, mandatory community drills, and stricter construction norms for vulnerable areas. Many district disaster management units lack the expertise to translate these into effective local action plans. Goal: Summarise disaster management policy updates for coastal district administrations. Prompt: "**You are** a disaster management policy expert. Summarise the NDMA's updated disaster preparedness guidelines for coastal states. **Include**: Early warning system requirements Community training and drill protocols Updated infrastructure safety standards Funding and resource allocation strategies" Inputs: NDMA policy update Coastal vulnerability maps Local infrastructure data

46. Prompt 21 – Public Transport Electrification Policy

– Public Transport Electrification Policy Backstory: The Ministry of Road Transport & Highways has announced a 10-year roadmap to transition public transport fleets to electric vehicles (EVs). While large cities have pilot projects, smaller cities and towns face procurement, charging infrastructure, and maintenance challenges. State transport corporations need a roadmap tailored to their operational scale. Goal: Summarise the public transport electrification policy for state and municipal transport bodies. Prompt: "**You are** a transportation policy advisor. Summarise the national public transport EV policy for state transport corporations. **Include**: Targets and timelines for fleet transition Financial incentives and subsidies Charging infrastructure requirements Workforce training for EV maintenance" Inputs: Public transport EV policy document Current fleet inventory Local power grid capacity report

47. Prompt 22 – National Water Policy Implementation Guide

– National Water Policy Implementation Guide Backstory: The revised National Water Policy emphasises water-use efficiency, river rejuvenation, and community-led conservation. Many local water boards struggle with fragmented data, outdated infrastructure, and public apathy towards water conservation. A clear summary can help them design district-specific action plans aligned with national goals. Goal: **Create** a simplified policy guide for local water boards. Prompt: "**You are** a water resource policy specialist. Summarise the revised National Water Policy for district water boards. **Include**: Key conservation targets Recommended urban and rural water-use strategies River rejuvenation measures Community participation models" Inputs: National Water Policy document Local water usage data Existing conservation projects list

48. Prompt 23 – Startup Incentives & Policy Compliance Guide

– Startup Incentives & Policy Compliance Guide Backstory: The Government of India has updated its Startup India initiative with new tax benefits, compliance relaxations, and funding schemes for early-stage ventures. Many young founders, especially outside metro cities, are unaware of how to navigate these provisions. A sector-neutral compliance guide could accelerate participation. Goal: Summarise Startup India benefits and compliance requirements for first-time founders. Prompt: "**You are** a startup policy advisor. Summarise the updated Startup India scheme for new entrepreneurs. **Include**: Eligibility criteria Tax exemptions and benefits Government funding programs Compliance and reporting requirements" Inputs: Startup India policy update Founder's business registration details Sector-specific eligibility norms

49. Prompt 24 – Agricultural Export Promotion Policy

– Agricultural Export Promotion Policy Backstory: To boost rural incomes, the government has revised its agricultural export policy with better infrastructure support, export hubs, and simplified procedures. However, small-scale farmers and FPOs (Farmer Producer Organisations) need clear, step-by-step guidance to tap into these opportunities. Goal: Summarise agricultural export policy for small farmers and FPOs. Prompt: "**You are** an agri-policy consultant. Summarise the updated agricultural export promotion policy for smallholder farmers. **Include**: Eligible crops and produce Export hub locations and facilities Application process for export licenses Government assistance and subsidies" Inputs: Agricultural export policy document Farmer/FPO registration details Crop yield and quality data

50. Prompt 25 – Cybersecurity Policy for Government Offices

– Cybersecurity Policy for Government Offices Backstory: The Ministry of Electronics and IT has released updated cybersecurity guidelines to protect government data from increasing cyber threats. These include multi-factor authentication, regular vulnerability audits, and stricter access controls. Smaller government offices, especially at district level, often lack dedicated IT staff and need a simplified action checklist. Goal: Summarise the updated cybersecurity policy for district-level government offices. Prompt: "**You are** a cybersecurity policy expert. Summarise the national cybersecurity guidelines for government offices. **Include**: Mandatory security measures Frequency and scope of security audits Data handling and encryption requirements Staff training recommendations" Inputs: Cybersecurity policy update Current IT infrastructure details User access records

Mock Interview Scripts

51. Prompt 1 – IAS Civil Services Mock Interview: National Security & Policy

– IAS Civil Services Mock Interview: National Security & Policy Backstory: A 26-year-old UPSC aspirant has cleared the Mains and is preparing for the Personality Test round. Their optional subject is Political Science & International Relations, and they have been following recent developments in India's border security and international diplomacy. However, they often struggle to give concise, structured answers under pressure. They need a realistic mock interview to simulate high-stakes questioning on national security, diplomacy, and governance. Goal: **Create** a structured IAS mock interview focused on national security and policy issues. Prompt: "**You are** a UPSC interview board member. Conduct a mock interview for a candidate with Political Science as their optional subject. Focus on: India's defence policy and recent border issues Role in multilateral organisations (e.g., BRICS, G20) Internal security challenges (e.g., cyber threats, terrorism) Ethical decision-making in governance Ask 10–12 questions, mix factual and opinion-based, and provide feedback after each answer." Inputs: Candidate's educational background Optional subject Current affairs they've been following Strengths and weaknesses in communication

52. Prompt 2 – State PCS Mock Interview: Rural Development & Administration

– State PCS Mock Interview: Rural Development & Administration Backstory: A candidate from Madhya Pradesh has cleared the written examination for the State Public Service Commission. Their background is in agriculture, and they have worked with an NGO on rural development. They need a mock interview that blends administrative duties with practical rural governance scenarios, preparing them for region-specific questions. Goal: Simulate a state PCS interview focused on rural governance and development. Prompt: "**You are** a State PCS interview panel member. Conduct a mock interview covering: Implementation of rural employment schemes (MGNREGA, PMGSY) Water resource management in drought-prone areas Public health challenges in rural districts Conflict resolution between village communities Ask 8–10 scenario-based questions and give feedback on policy clarity, empathy, and practicality of responses." Inputs: State and district the candidate is applying for Candidate's professional background Key local governance challenges

53. Prompt 3 – PSU HR Management Trainee Interview Simulation

– PSU HR Management Trainee Interview Simulation Backstory: A fresh MBA graduate from IIM Indore is appearing for an HR Management Trainee position in a major Public Sector Undertaking (PSU) like NTPC. While academically strong, they lack direct PSU exposure and need help aligning their answers with PSU work culture, values, and organisational priorities. Goal: **Create** a PSU-specific HR trainee interview simulation. Prompt: "**You are** a PSU recruitment panel member. Conduct a mock interview for an HR Management Trainee role. Cover: Employee engagement and retention strategies in large public organisations Handling labour disputes in industrial units Diversity and inclusion initiatives in PSU workplaces Balancing profitability and social responsibility **Include** 10 questions and provide sample ideal answers with rationale." Inputs: Candidate's MBA specialisation Preferred PSU sector (energy, manufacturing, etc.) Any internship or prior work experience

54. Prompt 4 – RBI Grade B Officer Mock Interview: Monetary Policy & Economics

– RBI Grade B Officer Mock Interview: Monetary Policy & Economics Backstory: A 29-year-old economics graduate has cleared the RBI Grade B Mains exam and is preparing for the final interview. They are confident in theory but struggle to connect economic concepts to real-world policy issues. They want practice articulating balanced, evidence-based answers on monetary policy, inflation, and financial stability. Goal: Simulate an RBI Grade B interview focusing on economics and policy application. Prompt: "**You are** an RBI interview board member. Conduct a mock interview on: Current inflation trends and RBI's control measures Monetary vs fiscal policy coordination Financial inclusion initiatives in rural India Impact of global economic shocks on Indian banking Ask 8–10 questions, encourage data-backed responses, and provide evaluative feedback." Inputs: Candidate's educational background Recent monetary policy statements they have read Preferred economic sectors of interest

55. Prompt 5 – Indian Railways Group A Interview: Infrastructure Management

– Indian Railways Group A Interview: Infrastructure Management Backstory: An engineering graduate has qualified for the Indian Engineering Services (IES) and is facing the interview for Indian Railways Group A services. They have experience in civil construction but limited knowledge of large-scale public infrastructure management. They want a mock interview that prepares them for operational, technical, and policy-level questions. Goal: **Create** a technical-cum-managerial mock interview for Indian Railways. Prompt: "**You are** a senior Indian Railways selection board member. Conduct a mock interview focusing on: Railway infrastructure modernisation projects Safety protocols and accident prevention Budget allocation for large-scale projects Public-private partnership opportunities in rail transport Ask 12–15 questions and give constructive feedback on technical accuracy, leadership qualities, and public service mindset." Inputs: Candidate's engineering branch Experience in infrastructure projects Knowledge of current railway development plans

56. Prompt 6 – SSC CGL Interview: Administrative Problem-Solving

– SSC CGL Interview: Administrative Problem-Solving Backstory: A graduate from Delhi University has cleared the Staff Selection Commission – Combined Graduate Level exam and is now preparing for the interview for an Assistant Section Officer post. They have a strong academic record but have never worked in a government setup before. They need practice in responding to administrative challenges and scenario-based questions that require logical thinking, resource allocation, and adherence to government procedures. Goal: **Create** a scenario-based mock interview for SSC CGL candidates focusing on administrative efficiency and coordination. Prompt: "**You are** an SSC interview panel member. Conduct a mock interview covering: Handling RTI requests under pressure Managing clerical and supervisory roles effectively Coordination between multiple government departments Digital transformation of administrative work Ask 8–10 questions, including 3 situational problem-solving cases, and provide targeted feedback on clarity, adherence to procedures, and time management." Inputs: Candidate's graduation subject Preferred department or ministry Prior exposure to government processes

57. Prompt 7 – UPSC CAPF Assistant Commandant Interview: Crisis Management

– UPSC CAPF Assistant Commandant Interview: Crisis Management Backstory: A 27-year-old candidate has cleared the written exam for the Central Armed Police Forces (CAPF) Assistant Commandant role. They are physically fit but tend to get nervous in high-pressure questioning. They need to practice interviews that combine leadership, tactical decision-making, and public service ethics. Goal: Simulate a CAPF interview focusing on crisis management and operational leadership. Prompt: "**You are** a senior officer on the CAPF interview panel. Conduct a mock interview with focus on: Managing a riot situation in a sensitive area Decision-making during natural disasters Coordination with state police and other agencies Ethical dilemmas in use-of-force situations Ask 12 questions, mix operational, ethical, and personal motivation aspects, and provide feedback on composure, decision quality, and empathy." Inputs: Candidate's state of domicile Physical fitness achievements Any prior NCC or police training experience

58. Prompt 8 – Indian Forest Service (IFoS) Interview: Environmental Policy & Fieldwork

– Indian Forest Service (IFoS) Interview: Environmental Policy & Fieldwork Backstory: An environmental science postgraduate has cleared the written stage of the IFoS exam. They have field research experience but limited exposure to policy-level discussions. They want an interview simulation that integrates biodiversity conservation with administrative responsibilities. Goal: **Create** a mock interview for IFoS candidates focusing on environmental conservation and governance. Prompt: "**You are** an Indian Forest Service interview board member. Conduct a mock interview on: Wildlife protection policies and challenges Human-wildlife conflict mitigation strategies Forest-based livelihood programmes Role of technology in forest management **Include** 10–12 questions, with at least 3 situational case studies, and give detailed feedback on technical depth, problem-solving, and balancing conservation with development." Inputs: Candidate's academic background Region they are most familiar with Major environmental issues in that region

59. Prompt 9 – Judicial Services Interview: Legal Reasoning & Ethics

– Judicial Services Interview: Legal Reasoning & Ethics Backstory: A young law graduate has passed the State Judicial Services Mains exam. They have theoretical legal knowledge but need help structuring their answers in an interview setting, especially for questions on ethics, judicial conduct, and application of law in ambiguous situations. Goal: Simulate a judicial services interview focusing on ethics, reasoning, and law application. Prompt: "**You are** a senior High Court judge conducting a Judicial Services mock interview. Focus on: Interpretation of ambiguous legal provisions Ethical conduct and conflict of interest scenarios Speedy justice vs procedural thoroughness Handling public criticism of judicial decisions Ask 10 questions, mix case studies and opinion-based queries, and provide thorough feedback on clarity, neutrality, and legal reasoning." Inputs: Candidate's law school background Specialisation areas in law Landmark judgments they are familiar with

60. Prompt 10 – UPSC Engineering Services Interview: Public Infrastructure Challenges

– UPSC Engineering Services Interview: Public Infrastructure Challenges Backstory: An electrical engineer working in a private company has cleared the Engineering Services Mains for a central government post. They have strong technical skills but need practice explaining engineering solutions in a governance and public service context. Goal: **Create** a mock interview for engineering candidates linking technical expertise with public service goals. Prompt: "**You are** a senior panelist for the Engineering Services interview. Conduct a mock interview covering: Power infrastructure challenges in rural India Smart grid technologies and their feasibility in India Disaster-proofing public infrastructure Cost-benefit analysis in public works projects Ask 12–15 questions, blending technical, managerial, and policy aspects, and give feedback on practical applicability and public service alignment." Inputs: Engineering discipline Past project experience State or region candidate wishes to serve in

61. Prompt 11 – UPSC CSE Interview: Rural Development & Governance

– UPSC CSE Interview: Rural Development & Governance Backstory: A candidate from Bihar has cleared the UPSC Mains and is preparing for the personality test. While academically strong, they lack structured answers for governance-related questions. Their background is in engineering, but their optional subject was sociology. They want to connect their technical skills with grassroots administration, especially in rural development and public welfare delivery. Goal: Simulate a UPSC interview focusing on rural governance and sustainable development. Prompt: "**You are** a UPSC board member. Conduct a mock interview on: Effective implementation of MGNREGA Challenges in rural sanitation under Swachh Bharat Mission Use of technology in rural development schemes Ethical challenges in rural resource allocation Ask 10–12 questions, including 3 case-based rural problem scenarios, and provide detailed feedback on balancing idealism with practicality." Inputs: Candidate's graduation discipline State of domicile Prior exposure to rural development issues

62. Prompt 12 – PSU Management Trainee Interview: Corporate-Government Interface

– PSU Management Trainee Interview: Corporate-Government Interface Backstory: A 24-year-old MBA graduate has cleared the written exam for a Management Trainee post in a Navratna PSU. They have corporate internship experience but no exposure to working in a semi-government structure. They want practice in explaining strategy, compliance, and social responsibility in a PSU setting. Goal: Simulate a PSU MT interview focusing on business strategy in a public sector environment. Prompt: "**You are** part of the PSU interview panel. Ask about: Balancing profitability and social obligations Navigating government procurement rules Corporate governance challenges in PSUs Case study: Delays in a public infrastructure project due to policy changes **Provide** feedback on strategic thinking, policy compliance awareness, and communication style." Inputs: Candidate's MBA specialisation Sector of the PSU (Oil, Energy, Steel, etc.) Example of a CSR project they admire

63. Prompt 13 – RBI Grade B Interview: Monetary Policy & Financial Stability

– RBI Grade B Interview: Monetary Policy & Financial Stability Backstory: An economics post-graduate has cleared the RBI Grade B Phase 2 exam. They have solid academic understanding but find it difficult to simplify technical monetary policy answers for a lay audience. They want practice in balancing policy depth with practical communication. Goal: Simulate an RBI Grade B interview focusing on monetary policy and financial regulation. Prompt: "**You are** an RBI interview panelist. Conduct a mock interview on: Current inflation control measures Role of RBI in regulating NBFCs Balancing growth and price stability Ethical issues in banking supervision Ask 10–12 questions, mix technical and scenario-based, and provide feedback on clarity, relevance, and awareness of current RBI policy moves." Inputs: Candidate's economic specialisation Recent financial news they have followed Region they wish to be posted in

64. Prompt 14 – State Civil Services Interview: Disaster Management Preparedness

– State Civil Services Interview: Disaster Management Preparedness Backstory: A civil services aspirant from Assam has cleared the State PSC mains and is heading to the interview stage. Their region faces annual flooding, and they want to integrate local knowledge with state-level disaster management policies in their responses. Goal: **Create** a mock interview focusing on disaster preparedness in state governance. Prompt: "**You are** a State PSC board member. Conduct a mock interview covering: State-level disaster management frameworks Role of Panchayats in relief operations Integrating technology like GIS in disaster mitigation Ethical allocation of relief funds during crises **Provide** feedback on local insight, administrative feasibility, and prioritisation of vulnerable populations." Inputs: Candidate's district Prior community involvement Knowledge of state disaster management policy

65. Prompt 15 – LIC AAO Interview: Insurance Sector & Public Service

– LIC AAO Interview: Insurance Sector & Public Service Backstory: A candidate from a commerce background has cleared the LIC AAO mains. They understand financial products but lack confidence in explaining how insurance contributes to public welfare in India. They also want practice in handling customer-service related questions in the interview. Goal: Simulate an LIC AAO interview focusing on insurance awareness and service delivery. Prompt: "**You are** an LIC interview panelist. Conduct a mock interview on: Importance of insurance penetration in rural India Ethical selling practices for insurance policies Managing claims disputes Digital transformation in insurance services **Provide** 8–10 questions and give feedback on empathy, product knowledge, and customer-first thinking." Inputs: Candidate's commerce/finance expertise Any prior sales or service experience Knowledge of LIC's latest schemes

66. Prompt 16 – SSC CGL Interview: Administrative Efficiency & Data Management

– SSC CGL Interview: Administrative Efficiency & Data Management Backstory: A graduate in statistics has cleared SSC CGL and is preparing for the interview. They are targeting a post in the Ministry of Finance but feel they lack real-world examples of administrative efficiency. Their academic training has focused on quantitative analysis, but they want to show adaptability to bureaucratic processes. Goal: Simulate an SSC CGL interview focusing on administrative efficiency in public service. Prompt: "**You are** part of the SSC CGL interview panel. Ask questions on: Use of

data analytics in policy implementation Improving file clearance times in government offices Challenges in inter-departmental coordination Ethical issues in handling sensitive data Ask 10 questions (mix direct and case-based) and provide feedback on clarity, practical thinking, and ethical judgment." Inputs: Candidate's degree and specialisation Preferred ministry or department Example of a data-driven decision they admire

67. Prompt 17 – Indian Railways RRB NTPC Interview: Public Transport Management

– Indian Railways RRB NTPC Interview: Public Transport Management Backstory: A mechanical engineering graduate from Maharashtra has cleared RRB NTPC exams. They want to join Indian Railways in a role that involves operations planning and passenger service improvement. However, they are unsure how to present their technical background in an operational management context. Goal: Simulate a railway interview focusing on passenger services and efficiency. Prompt: "**You are** an RRB NTPC interview board member. Conduct a mock interview on: Strategies to improve punctuality in passenger trains Integrating renewable energy in station operations Enhancing passenger safety measures Handling public complaints during service delays **Provide** feedback on linking technical knowledge to operational improvements." Inputs: Candidate's engineering branch Knowledge of Indian Railways current reforms Personal travel experience with Railways

68. Prompt 18 – UPSC Engineering Services Interview: Infrastructure Development

– UPSC Engineering Services Interview: Infrastructure Development Backstory: A civil engineer from Karnataka has cleared UPSC ESE mains. They have worked on small-scale private projects but now aim to transition to large-scale government infrastructure planning. They need to articulate how they can handle cost, quality, and environmental compliance in public works. Goal: Simulate a UPSC ESE interview focusing on infrastructure policy and execution. Prompt: "**You are** a UPSC ESE board member. Ask about: Managing delays in government construction projects Integrating sustainability into public infrastructure Public-private partnerships in highways development Case study: Handling cost overruns without compromising quality **Provide** detailed feedback on balancing technical, administrative, and ethical considerations." Inputs: Candidate's engineering field Exposure to government tender processes Knowledge of recent national infrastructure projects

69. Prompt 19 – Indian Forest Service Interview: Wildlife & Conservation Policy

– Indian Forest Service Interview: Wildlife & Conservation Policy Backstory: A life sciences graduate from Uttarakhand has cleared IFS mains. They are passionate about wildlife conservation but need practice in explaining how ecological priorities fit into India's development model. They also want to handle potential questions on human-animal conflict. Goal: Simulate an IFS interview focusing on environmental governance. Prompt: "**You are** an IFS interview panelist. Conduct a mock interview covering: Strategies for resolving human-wildlife conflict Afforestation policies and climate change mitigation Role of local communities in conservation Balancing tourism and wildlife protection in national parks **Provide** 12–15 questions and feedback on practical, policy-aware thinking." Inputs: Candidate's research experience Familiarity with specific Indian wildlife sanctuaries Personal conservation initiatives

70. Prompt 20 – NABARD Grade A Interview: Rural Banking & Agri-Innovation

– NABARD Grade A Interview: Rural Banking & Agri-Innovation Backstory: An agriculture graduate from Madhya Pradesh has cleared NABARD Grade A exams. They have knowledge of farming practices but want to link that to modern agri-financing solutions. They need help structuring answers that show how banking can accelerate rural innovation. Goal: Simulate a NABARD interview focusing on agri-finance and rural development. Prompt: "**You are** a NABARD interview panel member. Conduct a mock interview on: Financing Farmer Producer Organisations (FPOs) Digital tools for rural credit disbursement Crop insurance and climate resilience Ethical lending in distressed farmer situations **Provide** feedback on combining financial literacy with empathy." Inputs: Candidate's agriculture specialisation Familiarity with NABARD's flagship programs Awareness of rural credit challenges

71. Prompt 21 – State Police Services Interview: Law Enforcement & Community Trust

– State Police Services Interview: Law Enforcement & Community Trust Backstory: A criminal justice graduate has cleared the State Police Services mains in Uttar Pradesh. They have academic knowledge of criminology but no direct field experience. They want to show readiness for real-life policing challenges, from crime prevention to public trust building. Goal: Simulate a State Police Services interview focusing on law enforcement in a diverse society. Prompt: "**You are** a State Police Services interview board member. Conduct a mock interview on: Modern policing strategies for urban crime Role of social media in law enforcement Handling communal tensions as an officer Ethical issues in custodial investigations **Provide** feedback on judgment, crisis-handling, and ethics." Inputs: Candidate's district of domicile Exposure to community outreach programs Awareness of current policing reforms

72. Prompt 22 – ISRO Scientist/Engineer Interview: Space Technology & National Security

– ISRO Scientist/Engineer Interview: Space Technology & National Security Backstory: An aerospace engineer has cleared ISRO's written test and is preparing for the interview. They are technically sound but need practice explaining complex space technologies in a policy and strategic context. Goal: Simulate an ISRO interview focusing on India's space program and its applications. Prompt: "**You are** an ISRO interview panelist. Conduct a mock interview on: Role of satellites in disaster management Balancing civilian and defence applications of space tech India's space diplomacy efforts Ethical considerations in commercial satellite launches **Provide** 10–12 questions and feedback on clarity, depth, and relevance." Inputs: Candidate's engineering branch Recent ISRO missions they have followed Preferred research domain

73. Prompt 23 – AIIMS Nursing Officer Interview: Public Health & Patient Care

– AIIMS Nursing Officer Interview: Public Health & Patient Care Backstory: A B.Sc. Nursing graduate has cleared AIIMS Nursing Officer recruitment. They have hospital experience but want to strengthen answers on public health policy and patient rights in a government hospital setting.

77. Prompt 2 – RTI on Public Works Expenditure Transparency

– RTI on Public Works Expenditure Transparency Backstory: A social activist from Bihar suspects mismanagement in a rural road construction project under the PMGSY scheme. The road was inaugurated last month, but visible cracks and potholes have appeared already. The activist wants to know the total budget sanctioned, the contractor's details, and the inspection reports. Goal: Draft an RTI to obtain financial and inspection records for a public infrastructure project. Prompt: **"Prepare** a formal RTI application addressed to the Public Works Department (PWD) of Bihar, asking for: Sanctioned budget and actual expenditure Name and details of the contractor Dates and findings of official inspections Ensure the draft is clear, non-accusatory, and compliant with the RTI Act format." Inputs: Project name and location Date of completion/inauguration Any photo evidence (optional, for annexure)

78. Prompt 3 – Application for Government Job Age Relaxation

– Application for Government Job Age Relaxation Backstory: An applicant from Rajasthan is applying for a state government clerical post but is two months over the age limit. However, they belong to an OBC category that qualifies for age relaxation under state rules. They need to write a formal application to the recruitment board requesting consideration. Goal: Draft a professional application letter requesting age relaxation for a government recruitment process. Prompt: "Write a formal application to the Rajasthan Public Service Commission requesting age relaxation for an OBC category candidate who is two months over the limit. The application should: Cite relevant state government rules **Mention** category certificate details Request consideration without appearing entitled Maintain a formal and respectful tone." Inputs: Candidate's name, DOB, and category certificate number Post applied for Notification reference number

79. Prompt 4 – RTI for University Examination Paper Re-evaluation Timeline

– RTI for University Examination Paper Re-evaluation Timeline Backstory: A postgraduate student from a state university in Uttar Pradesh applied for paper re-evaluation two months ago and has not received any update. The delay is affecting their eligibility for a government fellowship. They want to file an RTI to know the status and timelines. Goal: Draft an RTI application seeking status and processing timeline for an exam re-evaluation request. Prompt: **"Prepare** a detailed RTI application addressed to the Controller of Examinations of the university asking for: Current status of re-evaluation request Date of expected completion Names of responsible officials processing the application Ensure it is polite, factual, and RTI-compliant." Inputs: Student name, roll number, and course Date of re-evaluation application University name and address

80. Prompt 5 – Application for Land Mutation in Municipal Records

– Application for Land Mutation in Municipal Records Backstory: A landowner in Gujarat recently inherited agricultural land from their father. The property transfer is legally complete, but the mutation in municipal records is pending for over six months. They need to submit a formal application to the local municipal corporation to expedite the process. Goal: Draft a professional application for land mutation entry in municipal records. Prompt: "Write a formal application to the Municipal Commissioner requesting mutation of inherited agricultural land in property records. The

letter should include: Inheritance proof details Survey number and property location Request for expedited processing due to pending loan application Ensure it is concise and formatted for official submission." Inputs: Applicant's name and address Survey/property number Date of inheritance documentation

81. Prompt 6 – RTI on Pending Pension Application

– RTI on Pending Pension Application Backstory: A retired government school teacher in Maharashtra applied for their pension benefits eight months ago. Despite submitting all required documents and reminders, they have not received any pension payments yet. Their only source of income is this pension, and the delay is causing financial stress. They want to file an RTI to find out the cause of the delay and the expected release date. Goal: Draft a clear RTI application seeking the status and reasons for delay in processing a pension application. Prompt: "**Prepare** an RTI application addressed to the Accounts and Pension Office of Maharashtra asking for: Current status of pension application Reasons for delay in payment Name and designation of the officer responsible Use a respectful tone and follow the official RTI Act format." Inputs: Applicant's name, pension ID, and retirement date Department from which retired Date of pension application submission

82. Prompt 7 – Application for Government Quarters Allocation

– Application for Government Quarters Allocation Backstory: An assistant engineer newly posted in Lucknow has been allotted a posting order but not provided with official accommodation. The private rent in the area is high, and they need to formally apply for government quarters to avoid financial strain. Goal: Draft a formal application requesting allocation of government housing. Prompt: "Write an official application to the Estate Officer requesting government quarters, including: Posting details and joining date Current rented accommodation cost Justification for urgent allotment Ensure it is concise, formal, and respectful." Inputs: Name, designation, and department Posting location and date of joining Current rent details

83. Prompt 8 – RTI for Transparency in Exam Results

– RTI for Transparency in Exam Results Backstory: A candidate for a state-level police constable exam in Tamil Nadu suspects discrepancies in the published results. Their score is significantly lower than expected. They wish to file an RTI to request their answer sheet copy and the evaluation process details. Goal: Draft an RTI application for obtaining exam evaluation details. Prompt: "**Prepare** a detailed RTI addressed to the Tamil Nadu Uniformed Services Recruitment Board requesting: Photocopy of the candidate's evaluated answer sheet Marking scheme used Any moderation rules applied Ensure it is polite, factual, and in standard RTI format." Inputs: Candidate's name, roll number, and exam date Recruitment notification reference number

84. Prompt 9 – Application for Correction in Government Records

– Application for Correction in Government Records Backstory: A citizen in West Bengal finds that their voter ID has an incorrect date of birth, which is preventing them from linking it with their Aadhaar. They need to file a formal correction application to the Electoral Registration Officer. Goal:

Draft an official application for correction in voter ID records. Prompt: "Write a formal application to the Electoral Registration Officer requesting correction of date of birth in voter ID. The letter should: **Include** correct DOB with documentary proof reference Clearly state the problem being faced due to the error Request prompt action for correction." Inputs: Voter ID number Correct DOB and proof document details Applicant's name and address

85. Prompt 10 – RTI on Utilization of MLA Local Area Development Funds

– RTI on Utilization of MLA Local Area Development Funds Backstory: A citizens' welfare group in Karnataka wants to check if MLA development funds allocated for installing streetlights in their area were actually used for the intended purpose. Goal: Draft an RTI application seeking fund utilization details. Prompt: "**Prepare** an RTI application addressed to the District Collector's Office asking for: Total amount sanctioned for streetlight installation under MLA-LAD funds Contractor details and work completion date Inspection and quality reports Ensure it follows RTI norms and avoids accusatory language." Inputs: Project name/location MLA constituency name Year of fund allocation

86. Prompt 11 – Application for Income Certificate

– Application for Income Certificate Backstory: A student in Kerala needs an income certificate from the village office to apply for a state scholarship. They must submit the application quickly before the deadline. Goal: Draft a formal application for issuance of an income certificate. Prompt: "Write an application to the Village Officer requesting issuance of an income certificate for scholarship purposes. **Include**: Applicant's details and family income Purpose of the certificate Relevant document references Keep the tone polite and concise." Inputs: Applicant name, address, and age Family income details Scholarship scheme name

87. Prompt 12 – RTI for Status of Public Grievance Complaint

– RTI for Status of Public Grievance Complaint Backstory: A citizen in Chandigarh lodged a public grievance on the CPGRAMS portal about irregular garbage collection but has not received any response for over a month. Goal: Draft an RTI to obtain status and actions taken on a grievance complaint. Prompt: "**Prepare** a formal RTI addressed to the Municipal Commissioner asking for: Current status of the grievance Officer handling the case Actions taken till date Follow RTI Act format and keep it factual." Inputs: Grievance reference number Date of submission Brief summary of complaint

88. Prompt 13 – Application for Fee Waiver in Public Hospital

– Application for Fee Waiver in Public Hospital Backstory: A low-income patient in Madhya Pradesh is undergoing long-term treatment at a government hospital and cannot afford the diagnostic test charges. They need to apply for a fee waiver citing financial hardship. Goal: Draft a formal application requesting medical fee waiver. Prompt: "Write an application to the Medical Superintendent requesting waiver of diagnostic charges, mentioning: Patient's medical condition Financial status and supporting documents Urgency of continued treatment Keep the tone empathetic yet professional." Inputs: Patient's name and hospital registration number Treatment

89. Prompt 14 – RTI for Recruitment Selection Criteria

– RTI for Recruitment Selection Criteria Backstory: A candidate in Himachal Pradesh appeared for a government engineer recruitment exam but is unsure how final selections were made. They want to know the weightage given to written exam, interview, and academic scores. Goal: Draft an RTI to request official selection criteria and weightage details. Prompt: "**Prepare** an RTI application addressed to the HP Public Service Commission asking for: Selection criteria breakdown Weightage assigned to various stages Tie-breaking rules, if any Ensure compliance with RTI Act format." Inputs: Post name and recruitment notification number Candidate's name and roll number

90. Prompt 15 – Application for Police Verification for Passport

– Application for Police Verification for Passport Backstory: A citizen in Punjab has applied for a passport, but the process is pending due to delay in police verification. They want to submit a formal request to the local police station to expedite the verification. Goal: Draft a formal application requesting expedited police verification. Prompt: "Write an application to the Station House Officer requesting quick completion of police verification for passport issuance. **Include:** Passport application reference number Reason for urgency (e.g., job offer abroad) Request for status update Keep it respectful and factual." Inputs: Applicant name and address Passport application number Urgency reason

91. Prompt 16 – RTI on Public Works Project Delays

– RTI on Public Works Project Delays Backstory: A residents' association in Delhi is concerned about a public road-widening project that was supposed to be completed six months ago but is still pending. Frequent traffic jams are causing inconvenience, and the community wants to know why the project is delayed. Goal: Draft an RTI application requesting reasons and updated timelines for the project. Prompt: "**Prepare** a formal RTI addressed to the Public Works Department asking for: Current status of the project Reasons for delay Revised completion date Follow RTI norms and maintain a non-confrontational tone." Inputs: Project name and location Sanction order number Date of project commencement

92. Prompt 17 – Application for OBC Caste Certificate

– Application for OBC Caste Certificate Backstory: A college student in Gujarat needs an OBC caste certificate to apply for reserved category benefits in a competitive exam. They must submit an application to the local Tehsildar along with supporting documents. Goal: Draft a formal application requesting an OBC caste certificate. Prompt: "Write an application to the Tehsildar requesting issuance of an OBC caste certificate. **Include:** Applicant details and address Purpose of the certificate List of supporting documents Keep it respectful and official." Inputs: Name and age Community name and sub-caste Examination or job application reference

93. Prompt 18 – RTI for Government Scheme Beneficiary List

– RTI for Government Scheme Beneficiary List Backstory: Farmers in a Maharashtra village suspect that the fertilizer subsidy scheme has not reached all eligible households. They want to verify the official beneficiary list for transparency. Goal: Draft an RTI application to obtain a scheme beneficiary list. Prompt: "**Prepare** an RTI addressed to the Department of Agriculture requesting: Complete list of beneficiaries under the fertilizer subsidy scheme for the last financial year Criteria used for selection Ensure compliance with RTI format and respectful language." Inputs: Scheme name and year Village and district name

94. Prompt 19 – Application for Name Change in Birth Certificate

– Application for Name Change in Birth Certificate Backstory: A young professional in Bengaluru has a mismatch between their passport and birth certificate names due to a clerical error. They need to correct the record for visa application purposes. Goal: Draft a formal application for correcting the name in a birth certificate. Prompt: "Write an application to the Registrar of Births and Deaths requesting correction of the name in the birth certificate. **Include**: Correct name with proof documents Reason for correction Request for issuance of an updated certificate." Inputs: Current incorrect name in record Correct name and supporting documents Registration number and date of birth

95. Prompt 20 – RTI for Status of Ration Card Application

– RTI for Status of Ration Card Application Backstory: A newly married couple in Uttar Pradesh applied for a family ration card three months ago but have not received any updates. They want to check the application status to avoid disruption in subsidized food supply. Goal: Draft an RTI application requesting ration card application status. Prompt: "**Prepare** an RTI addressed to the Food and Civil Supplies Department asking for: Current status of application Reasons for any delay Expected issuance date Ensure the tone is factual and in standard RTI format." Inputs: Application reference number Date of submission Applicant details

96. Prompt 21 – Application for Duplicate Marksheets

– Application for Duplicate Marksheets Backstory: An engineering graduate in Tamil Nadu lost their university marksheets in a flood. They need to apply for duplicate copies for job application purposes. Goal: Draft a formal application requesting duplicate marksheets. Prompt: "Write an application to the Controller of Examinations requesting duplicate copies of university marksheets. **Mention**: Circumstances of loss List of required documents for verification Urgency for employment purposes." Inputs: Course and university name Roll number and graduation year List of lost documents

97. Prompt 22 – RTI for Hospital Procurement Transparency

– RTI for Hospital Procurement Transparency Backstory: An NGO in Rajasthan suspects overpricing in the purchase of medical equipment by a government hospital. They want to file an RTI to verify procurement details. Goal: Draft an RTI seeking purchase and pricing details for

medical equipment. Prompt: "**Prepare** a formal RTI addressed to the Chief Medical Officer asking for: Itemized list of medical equipment purchased Price paid per unit Supplier details Maintain a professional and factual tone." Inputs: Hospital name and location Time period of procurement

98. Prompt 23 – Application for Land Mutation

– Application for Land Mutation Backstory: A landowner in Bihar recently inherited agricultural land from their father. They need to update revenue records to reflect the ownership change. Goal: Draft a formal application for land mutation. Prompt: "Write an application to the Revenue Officer requesting mutation of land records. **Include**: Land parcel details Inheritance documents reference Request for updated ownership records." Inputs: Khasra number and area Previous owner's name Applicant's relation to previous owner

99. Prompt 24 – RTI for Pending Road Repair Works

– RTI for Pending Road Repair Works Backstory: Residents of a housing colony in Kerala have been facing difficulties due to incomplete road repairs. The project started three months ago and has stalled midway. Goal: Draft an RTI application to know why road repairs are incomplete. Prompt: "**Prepare** a formal RTI addressed to the Public Works Department asking for: Status of road repair project Reasons for work stoppage Revised timeline for completion Ensure adherence to RTI format." Inputs: Project location and sanction order Date of commencement

100. Prompt 25 – Application for Disability Certificate

– Application for Disability Certificate Backstory: A physically challenged person in Odisha needs a disability certificate to avail reservation benefits in a government job. Goal: Draft a formal application requesting a disability certificate. Prompt: "Write an application to the District Medical Board requesting issuance of a disability certificate. **Mention**: Nature of disability Percentage of impairment (if known) Purpose of certificate Keep tone formal and respectful." Essay & report writing

101. Prompt 1 – Essay on India's Journey to Renewable Energy

– Essay on India's Journey to Renewable Energy Backstory: A civil services aspirant preparing for the UPSC mains exam needs to write a high-quality essay on India's transition to renewable energy. The candidate wants to highlight both the achievements and the challenges, ensuring a balanced view. They also aim to include relevant government initiatives, international commitments, and future outlook to score higher in the exam. Goal: Generate a 1500-word structured essay covering India's renewable energy progress, policies like the National Solar Mission, international pacts like the Paris Agreement, and challenges in achieving net-zero goals. Prompt: "Write a detailed, well-structured essay on 'India's Journey to Renewable Energy: Achievements, Challenges, and the Road Ahead'. **Include** statistics, case studies, policy references, and a critical analysis section. Conclude with recommendations for policymakers." Inputs: Target audience:

102. Prompt 2 – Report on Digital Governance in Rural India

– Report on Digital Governance in Rural India Backstory: An MPA student is working on a research project assessing the impact of digital governance initiatives like e-Gram Swaraj and Common Service Centres in improving rural service delivery. The report must be professional, data-driven, and suitable for academic submission. Goal: Draft a comprehensive report with an executive summary, methodology, findings, and recommendations. Prompt: "**Prepare** a 10-page analytical report titled 'Digital Governance in Rural India: Transforming Public Service Delivery'. **Include** introduction, methodology, case studies, challenges, and recommendations. Use real examples from states like Karnataka and Odisha." Inputs: Program names Field data collected from surveys Academic citation style

103. Prompt 3 – Essay on Women in Indian Armed Forces

– Essay on Women in Indian Armed Forces Backstory: A candidate for the Staff Selection Commission (SSC) exam has an essay paper where gender integration in the armed forces is a possible topic. The aspirant wants a persuasive yet balanced write-up highlighting constitutional principles, operational readiness, and global comparisons. Goal: Produce a competitive essay blending facts, legal references, and emotional appeal. Prompt: "Write a 1200-word essay on 'The Role and Challenges of Women in the Indian Armed Forces'. Cover legal milestones, Supreme Court judgments, international best practices, and societal attitudes. End with policy suggestions." Inputs: **Mention** landmark cases like the Babita Puniya judgment Use relevant defence statistics

104. Prompt 4 – Policy Evaluation Report on Swachh Bharat Mission

– Policy Evaluation Report on Swachh Bharat Mission Backstory: A postgraduate student in public policy needs to submit a policy evaluation report on the Swachh Bharat Mission (SBM) for their term project. The evaluation should be objective, data-backed, and address both successes and gaps. Goal: **Create** a professional policy evaluation report with visual data presentation. Prompt: "Draft a policy evaluation report on Swachh Bharat Mission (Urban & Rural). **Include** background, objectives, implementation progress, challenges, impact assessment, and recommendations. Use charts/graphs for data representation." Inputs: Data from government reports Comparative analysis between urban and rural outcomes

105. Prompt 5 – Essay on India's Space Program for National Security

– Essay on India's Space Program for National Security Backstory: An aspirant preparing for CAPF (AC) exams has an essay topic about the strategic role of ISRO in India's national security. They want the content to be technical enough for examiners yet easy to read. Goal: **Prepare** a strategic analysis essay linking space technology and defence applications. Prompt: "Write a 1000-word essay on 'India's Space Program and Its Role in National Security'. Cover ISRO's achievements, collaborations with DRDO, satellite applications for surveillance and disaster management, and future challenges." Inputs: **Mention** PSLV, GSLV, and GSAT series **Add** references to specific missions

106. Prompt 6 – Annual Performance Report for Municipal Corporation

– Annual Performance Report for Municipal Corporation Backstory: A municipal commissioner in Madhya Pradesh needs to present an annual performance report highlighting infrastructure projects, sanitation drives, and citizen services improvement. The report will be submitted to the state government. Goal: **Create** a structured and visually engaging municipal performance report. Prompt: "Draft an annual performance report for the [Municipal Corporation Name] covering infrastructure works, sanitation programs, revenue generation, citizen feedback, and future plans. **Include** infographics and project timelines." Inputs: Data from department records Citizen satisfaction survey results

107. Prompt 7 – Essay on Cooperative Federalism in India

– Essay on Cooperative Federalism in India Backstory: An LLB student is participating in a legal essay competition where the topic is cooperative federalism. The essay should include constitutional provisions, case laws, and contemporary challenges like GST implementation. Goal: Produce a scholarly essay on cooperative federalism in the Indian context. Prompt: "Write a 2000-word legal essay on 'Cooperative Federalism in India: Constitutional Vision and Practical Realities'. **Include** Articles, case laws, Centre-State relations, and recent policy disputes." Inputs: Constitution provisions (Articles 245–263) Recent case references

108. Prompt 8 – Development Report on Tribal Education in India

– Development Report on Tribal Education in India Backstory: A social work NGO is preparing a development report for a UN grant application, focusing on improving educational access for tribal children in Jharkhand and Chhattisgarh. Goal: **Create** a professional development impact report. Prompt: "Draft a development report on 'Educational Access in Tribal Areas of India'. **Include** baseline data, interventions made, case studies, challenges, and recommendations. Write in a format suitable for donor review." Inputs: Field data and photos Literacy rate statistics

109. Prompt 9 – Essay on Artificial Intelligence in Public Administration

– Essay on Artificial Intelligence in Public Administration Backstory: A UPSC aspirant has to prepare for an ethics and governance paper. AI in public administration is a trending topic, and they want to present both the potential benefits and ethical risks. Goal: Write a balanced, analytical essay for a governance paper. Prompt: "Write a 1500-word essay on 'The Role of Artificial Intelligence in Public Administration'. **Include** examples from Indian initiatives, ethical concerns, and policy recommendations." Inputs: Government AI policies like National AI Strategy Global case studies

110. Prompt 10 – Analytical Report on Climate Resilience in Urban India

implementation across Indian states. **Include:** Key policy features relevant to school and higher education. Early successes and pilot program feedback. Implementation challenges in rural vs. urban areas. Recommendations for scaling and improvement." Inputs Required from User: Target audience (ministry, academic board, exam evaluation) Data points from government reports State-specific examples

114. Prompt 14 – Public Health Infrastructure Report

– Public Health Infrastructure Report Backstory: India's public health infrastructure faced enormous pressure during the COVID-19 pandemic. A state health department is compiling a formal report to request central assistance for upgrading district hospitals. You have to write this report as part of your CAPF exam practice, integrating statistical data, community health indicators, and budgetary requirements. Goal: **Create** a detailed public health infrastructure assessment report with recommendations. Prompt: "Draft a professional report assessing the current state of public health infrastructure in Bihar post-COVID-19. **Include:** Overview of current hospital capacity and facilities. Analysis of gaps exposed during the pandemic. Priority areas for immediate investment. Budget estimates and expected impact on health outcomes." Inputs Required from User: Location and time frame Current infrastructure data Identified shortcomings Proposed budget

115. Prompt 15 – Skill Development Mission Evaluation

– Skill Development Mission Evaluation Backstory: The Ministry of Skill Development and Entrepreneurship (MSDE) launched the Skill India Mission to upskill India's youth. A parliamentary committee has asked for a progress evaluation report to determine whether the scheme is meeting employment generation goals. As a competitive exam candidate, you must draft an analytical report with a clear problem-solution approach. Goal: Write an evaluation report for Skill India Mission with statistics and recommendations. Prompt: "**Prepare** an evaluation report for the Skill India Mission (2015–2025). **Include:** Objectives and target groups of the mission. Performance indicators and statistical data. Success stories and industry partnerships. Challenges in training quality and placement. Recommendations for enhancing employability outcomes." Inputs Required from User: Target audience (parliament, academic project, exam answer) Current scheme performance data Case examples

116. Prompt 16 – Urban Sanitation Mission Impact Report

– Urban Sanitation Mission Impact Report Backstory: The Swachh Bharat Mission has been one of India's largest cleanliness drives, targeting both rural and urban sanitation improvements. In many metropolitan cities, waste segregation at source and public toilet maintenance have shown mixed results. A city municipal corporation is compiling a report to present at the National Sanitation Summit, highlighting achievements, ongoing issues, and plans to improve urban hygiene infrastructure. Goal: **Prepare** a professional report analyzing the impact of Swachh Bharat Mission in a specific city. Prompt: "**Create** a detailed impact assessment report for the Swachh Bharat Mission in Pune city. **Include:** Pre-mission sanitation challenges and baseline data. Infrastructure development and behaviour change campaigns. Measurable improvements in cleanliness and waste management. Persistent challenges in implementation. Policy and citizen engagement recommendations." Inputs Required from User: City-specific sanitation data Before/after comparison figures Key initiatives taken locally

117. Prompt 17 – Women Empowerment Policy Analysis Essay

– Women Empowerment Policy Analysis Essay Backstory: Government schemes like Beti Bachao Beti Padhao and Mahila E-Haat aim to uplift women socially and economically. While awareness has increased, the actual on-ground results vary across regions. As part of a UPSC mains practice, you are asked to write an analytical essay exploring how these policies are performing, the cultural challenges faced, and the structural changes required to empower women fully. Goal: Write an essay evaluating India's women empowerment schemes and suggesting improvements. Prompt: "Draft a 1500-word essay on 'Women Empowerment in India: Policy Efforts and the Way Forward'. **Include:** Overview of key schemes and their objectives. Measurable progress and real-life success stories. Social, cultural, and institutional barriers. Strategies for sustainable empowerment." Inputs Required from User: List of schemes to focus on Any state-specific examples or case studies

118. Prompt 18 – Renewable Energy Development Report

– Renewable Energy Development Report Backstory: India has committed to ambitious renewable energy targets, including achieving 500 GW by 2030. The Ministry of New and Renewable Energy (MNRE) is preparing a quarterly report to assess the growth of solar, wind, and hydro projects. This report will be tabled in Parliament and must include data analysis, investment trends, and policy gaps. Goal: **Prepare** a government-standard renewable energy progress report. Prompt: "Write a detailed renewable energy sector progress report for India (Jan–Mar 2025). **Include:** Installed capacity by sector (solar, wind, hydro, biomass). Key state-wise contributions and leading projects. Investment trends and foreign participation. Challenges in land acquisition, storage, and grid integration. Recommendations to accelerate adoption." Inputs Required from User: Latest official data Notable projects or MoUs Identified bottlenecks

119. Prompt 19 – Defence Modernisation White Paper

– Defence Modernisation White Paper Backstory: The Indian Armed Forces are undergoing modernisation in equipment, cyber capabilities, and strategic infrastructure. The Ministry of Defence requires a white paper to outline current progress, pending procurement deals, and challenges in domestic defence manufacturing. This document will be used for both policy advocacy and industry partnership discussions. Goal: Draft a formal white paper on India's defence modernisation efforts. Prompt: "**Prepare** a white paper titled 'Modernising India's Defence Forces: Progress and Prospects'. **Include:** Overview of ongoing modernisation initiatives. Status of indigenous defence production under 'Make in India'. Key procurement and technology partnerships. Operational and logistical challenges. Policy recommendations for faster implementation." Inputs Required from User: Specific branches to highlight (Army/Navy/Air Force) Key policy references Current procurement updates

120. Prompt 20 – Agricultural Reforms Evaluation Report

– Agricultural Reforms Evaluation Report Backstory: Recent changes in MSP policy, digital mandis, and agri-tech adoption have stirred debates about farmer welfare and market efficiency. The Ministry of Agriculture is seeking a comprehensive evaluation to present at the Krishi Sammelan.

The report should balance government perspectives, farmer concerns, and economic implications. Goal: **Create** a balanced agricultural reforms evaluation report. Prompt: "Draft a 2500-word agricultural reforms report focusing on MSP policy and digital marketplace adoption. **Include:** Background and need for reforms. Implementation status and key schemes. Farmer sentiment and grassroots feedback. Impact on productivity, pricing, and income stability. Policy suggestions for inclusive growth." Inputs Required from User: State(s) of focus Farmer survey or media data Market performance indicators

121. Prompt 21 – National Education Policy Implementation Review

– National Education Policy Implementation Review Backstory: India's National Education Policy (NEP) 2020 brought sweeping changes to school and higher education. However, states vary in how quickly and effectively they have implemented key reforms such as multidisciplinary courses, skill-based learning, and the 5+3+3+4 structure. An education think tank is compiling a review essay to present to the Ministry of Education, highlighting the successes, delays, and lessons learned so far. Goal: Write a policy review essay on NEP 2020 implementation. Prompt: **"Prepare a 2000-word essay titled 'NEP 2020: Three Years of Progress and Challenges'. Include:** Brief overview of the policy's key reforms. State-wise implementation analysis with examples. Positive outcomes and areas of resistance. Recommendations for smoother adoption and scaling."

Inputs Required from User: State(s) to focus on Implementation data and timelines Stakeholder feedback

122. Prompt 22 – Smart City Project Impact Study

– Smart City Project Impact Study Backstory: The Smart Cities Mission was launched to improve urban infrastructure, governance, and citizen services using technology. While certain cities like Indore and Surat have made significant progress, others have faced project delays and budget constraints. An urban development department needs a well-researched report for parliamentary presentation. Goal: Draft an impact study report on the Smart Cities Mission. Prompt: "Write a 2500-word Smart City impact study for Surat, including: Vision and goals of the city's smart initiatives. Projects completed and their measurable outcomes. Funding patterns and utilisation efficiency. Citizen feedback and satisfaction surveys. Suggestions for enhancing scalability and replication." Inputs Required from User: City's project list and completion status Budget allocations and expenditure data Feedback data from residents

123. Prompt 23 – Rural Skill Development Programme Review

– Rural Skill Development Programme Review Backstory: The Deen Dayal Upadhyaya Grameen Kaushalya Yojana (DDU-GKY) focuses on providing job-oriented skills to rural youth. While enrolment numbers are high, the actual placement rates vary widely. A state government is seeking a report to highlight achievements and propose improvements before applying for additional central funding. Goal: **Prepare** a rural skill development programme review report. Prompt: "**Prepare** a 1800-word review of DDU-GKY's performance in Odisha. **Include:** Enrolment and training completion statistics. Types of skills imparted and relevance to job markets. Placement success rates and follow-up tracking. Success stories and challenges faced. Recommendations for better employer engagement and curriculum alignment." Inputs Required from User: Programme's regional data Industry tie-ups list Candidate follow-up records

124. Prompt 24 – Climate Change Adaptation Policy Essay

– Climate Change Adaptation Policy Essay Backstory: India is experiencing more extreme weather events, impacting agriculture, water availability, and coastal communities. The National Action Plan on Climate Change (NAPCC) aims to build resilience, but there is debate over whether current measures are sufficient. A civil services aspirant is tasked with drafting an analytical essay for practice. Goal: Write a climate change adaptation policy essay. Prompt: "Write a 1500-word essay on 'Adapting to Climate Change: India's Policy Framework'. **Include:** Overview of NAPCC and state-level missions. Sectoral vulnerabilities (agriculture, water, coastal zones). Implementation gaps and funding constraints. Case studies of successful adaptation measures. Strategies for improving resilience." Inputs Required from User: Specific states or sectors to highlight Latest climate data Notable success stories

125. Prompt 25 – Digital Governance & e-Governance Review Report

– Digital Governance & e-Governance Review Report Backstory: India's Digital India programme has transformed access to government services, but rural connectivity, digital literacy, and data privacy remain issues. A parliamentary committee needs a status report to inform the next budget allocation for e-governance. Goal: **Prepare** a review report on Digital India's progress. Prompt: "Draft a 2200-word Digital India review report, covering: Key services digitised and adoption rates. Impact on governance efficiency and citizen experience. Gaps in rural and marginalised community access. Data protection and privacy considerations. Policy recommendations for inclusive digital governance." Inputs Required from User: Adoption and usage statistics Success stories and pain points Privacy/legal compliance notes
