Introduction

1. Contract Drafting Templates

Freelance Graphic **Design** Service Agreement for a Startup Backstory: Rohit, 28, is a freelance graphic designer in Bengaluru who has just been approached by a newly launched fashion startup to design their brand identity, including the logo, packaging, and website banners. The startup has promised staged payments but has not provided any formal contract. Rohit wants to ensure he has clear terms around deliverables, payment schedules, intellectual property ownership, confidentiality, revision limits, and termination clauses. He also wants the language to be simple enough for both parties to understand without a lawyer present. Goal: **Create** a professional yet simple freelance service agreement that safeguards Rohit's payment rights, defines deliverables and timelines, protects intellectual property, and includes clauses for dispute resolution in India. Prompt: "**You are** an experienced contract lawyer specialising in creative service agreements for freelancers in India. Draft a comprehensive yet easy-to-read freelance service agreement between a freelance graphic designer and a startup. **Include** sections for: scope of work, deliverables with timelines, payment terms (including late fees), intellectual property transfer, confidentiality, revision policy, termination rights, and dispute resolution under Indian law. Use clear, plain English and avoid overly complex legal jargon." Inputs Required from User: Freelancer name & address Client name & address Scope of work description Total project fee & payment milestones Maximum number of revisions Preferred dispute resolution method (e.g., arbitration, court)

2. Prompt 2 — Influencer Collaboration Contract for a Brand Campaign

Influencer Collaboration Contract for a Brand Campaign Backstory: Priya, 25, is a lifestyle influencer based in Mumbai with 120k Instagram followers. A skincare brand has approached her to promote their new product line over a 3-month campaign involving reels, stories, and one live session. Priya has worked without contracts before but faced payment delays and vague deliverable expectations. This time, she wants a written agreement detailing content deliverables, posting schedule, compensation, usage rights, exclusivity terms, and disclosure requirements as per ASCI guidelines in India. Goal: Draft a detailed influencer-brand collaboration contract that outlines deliverables, payment schedule, brand approval process, and compliance with Indian advertising laws. Prompt: "**You are** a legal expert specialising in influencer marketing agreements in India. **Create** a professional collaboration contract between a brand and an influencer for a 3-month campaign. **Include** clauses for: scope of work (content deliverables and posting schedule), approval process, payment terms, intellectual property & usage rights, exclusivity during the campaign, ASCI and disclosure compliance, termination rights, and dispute resolution. Ensure the language is legally sound yet easy for both parties to understand." Inputs Required from User: Influencer name & address Brand name & address Campaign start & end dates Number & type of deliverables (reels, stories, live sessions) Payment amount & schedule Exclusivity period (if any)

3. Prompt 3 — Co-Founders Agreement for an Indian Private Limited Company

Co-Founders Agreement for an Indian Private Limited Company Backstory: Amit, 31, and Neha, 29, are co-founders starting a health-tech startup in Delhi. They have verbally agreed on roles, equity split, and decision-making responsibilities, but a mentor advised them to formalise these in writing to avoid disputes. They need a co-founders agreement that outlines equity ownership, capital contributions, decision-making authority, vesting schedules, exit clauses, and handling of

intellectual property. Goal: Prepare a legally binding co-founders agreement that clearly defines roles, responsibilities, and ownership, while protecting the business from future disputes. Prompt: "**You are** a corporate lawyer specialising in startup founder agreements in India. Draft a co-founders agreement for an Indian Private Limited Company that includes: roles & responsibilities, equity distribution, capital contribution terms, vesting schedules, decision-making process, non-compete and confidentiality clauses, intellectual property ownership, founder exit procedures, and dispute resolution under Indian law. Ensure clarity while maintaining legal enforceability." Inputs Required from User: Names & addresses of co-founders Proposed equity split Capital contributions (cash or assets) Vesting period (if any) Decision-making rules (e.g., unanimous or majority)

4. Prompt 4 — Vendor Agreement for an E-commerce Business

Vendor Agreement for an E-commerce Business Backstory: Shreya runs an online home décor marketplace and partners with multiple small vendors to sell handmade products. She wants a standardised vendor agreement to ensure quality, timely delivery, payment security, and compliance with return/refund policies. Her past experiences with verbal agreements have led to disputes over damaged goods and delayed shipping. Goal: **Create** a vendor agreement template that clearly defines terms for supply, payment, quality checks, returns, and liability. Prompt: "**You are** a commercial contracts lawyer in India. Draft a vendor agreement for an e-commerce business that covers: product supply terms, quality standards, packaging requirements, delivery timelines, payment terms, return/refund policy, liability for damaged goods, intellectual property rights for product images, and dispute resolution. Use clear, concise, and enforceable clauses suitable for recurring use with multiple vendors." Inputs Required from User: Vendor name & address Product categories supplied Payment schedule & method Delivery timeframes Return/refund policy details

5. Prompt 5 — Employment Contract for a Tech Startup

Employment Contract for a Tech Startup Backstory: Vikram, 30, is the founder of a SaaS startup in Pune hiring his first full-time developer. Since he's operating on seed funding, he wants to offer a combination of fixed salary and ESOPs. He needs an employment contract that covers job role, salary structure, ESOP vesting, confidentiality, non-compete, and termination terms — all while being compliant with Indian labour laws. Goal: Draft an employment contract that is legally compliant, protects intellectual property, and includes clear ESOP terms. Prompt: "**You are** an HR and employment law expert in India. **Create** a detailed employment contract for a tech startup hiring a software developer. **Include** clauses for: position & responsibilities, working hours, salary breakdown, ESOP grant & vesting schedule, confidentiality, non-compete, intellectual property assignment, termination process, and compliance with Indian labour regulations. Keep the language professional and precise." Inputs Required from User: Employer name & address Employee name & address Job title & description Salary details & ESOP percentage Working hours & location Termination notice period

6. Prompt 6 — Non-Disclosure Agreement (NDA) for Startup Investor Meetings

Non-Disclosure Agreement (NDA) for Startup Investor Meetings Backstory: Karan, 33, is the founder of a fintech startup preparing to pitch to multiple investors. He plans to share sensitive details such as proprietary algorithms, client acquisition strategies, and unreleased product

features. He's concerned about these investors potentially using the information to invest in competitors or start similar ventures. He needs an NDA that protects his confidential information while remaining investor-friendly to avoid scaring them off. Goal: **Create** a balanced NDA that protects proprietary information without being overly restrictive for potential investors. Prompt: "**You are** a legal specialist in early-stage startup fundraising. Draft a mutual NDA between a startup founder and potential investors that covers: definition of confidential information, obligations of confidentiality, permitted disclosures, duration of confidentiality, exceptions to obligations, and remedies for breach. Ensure it is investor-friendly, concise, and compliant with Indian contract law while providing adequate protection to the founder's sensitive business data." Inputs Required from User: Founder name & address Investor name & address Duration of confidentiality obligation Governing law & jurisdiction

7. Prompt 7 — Joint Venture Agreement for Manufacturing Partnership

Joint Venture Agreement for Manufacturing Partnership Backstory: An Indian furniture company wants to partner with a Singapore-based design firm to produce a premium furniture line for the Asian market. Both parties will invest equally, share profits, and manage operations jointly. Past experiences in the industry show that without a clear JV agreement, disputes over profit-sharing, IP rights, and exit clauses can derail operations. Goal: Draft a comprehensive joint venture agreement that sets clear terms for capital contribution, profit-sharing, management, and dispute resolution. Prompt: "**You are** a corporate contracts lawyer experienced in international partnerships. Draft a Joint Venture Agreement between an Indian manufacturing company and a Singapore-based design firm that includes: formation details, capital contribution, profit/loss sharing ratio, management structure, intellectual property ownership, confidentiality, dispute resolution (cross-border), exit clauses, and governing law. Ensure clarity and legal enforceability for both jurisdictions." Inputs Required from User: Names & addresses of both parties Capital contribution amounts Profit/loss sharing ratio Management roles & decision-making process Governing law preference

8. Prompt 8 — Franchise Agreement for a Café Brand

Franchise Agreement for a Café Brand Backstory: An established café brand in Delhi is offering its first franchise to an entrepreneur in Jaipur. The franchisor wants to ensure brand consistency in operations, quality, and marketing while the franchisee wants clarity on support, territory rights, and termination clauses. Goal: Prepare a detailed franchise agreement that balances brand protection and franchisee rights. Prompt: "**You are** a commercial lawyer specialising in franchise agreements. Draft a franchise agreement for a café business in India that includes: franchise grant & territory rights, initial & ongoing fees, operational guidelines, quality standards, training & support obligations, marketing requirements, intellectual property use, audit rights, termination & post-termination obligations, and dispute resolution. Use a tone that is professional yet clear for entrepreneurs new to franchising." Inputs Required from User: Franchisee name & address Territory/location rights Initial franchise fee & royalty percentage Support & training details Termination notice period

9. Prompt 9 — Partnership Deed for a Small Business

Partnership Deed for a Small Business Backstory: Two cousins are starting a bakery in Lucknow and plan to split profits 60-40. They've agreed verbally on capital contributions and responsibilities but want a written partnership deed to avoid misunderstandings later. Goal: Draft a legally valid partnership deed under Indian law with clear clauses on profit-sharing, responsibilities, and dissolution. Prompt: "**You are** an expert in Indian partnership laws. Draft a partnership deed for a small bakery business that includes: firm name & address, partner details, capital contributions, profit/loss sharing ratio, roles & responsibilities, decision-making process, withdrawal of capital, admission of new partners, dissolution procedure, and dispute resolution. Ensure the language is clear and accessible for non-lawyers while maintaining legal enforceability." Inputs Required from User: Partner names & addresses Capital contributions Profit/loss split Decision-making rules Dispute resolution method

10. Prompt 10 — Service Level Agreement (SLA) for IT Services

Service Level Agreement (SLA) for IT Services Backstory: A mid-sized Indian company is outsourcing its IT support to a vendor for network management, cybersecurity monitoring, and helpdesk services. The company previously suffered downtime and slow issue resolution due to vague contracts. Goal: **Create** a clear SLA that defines performance standards, response times, and penalties for non-compliance. Prompt: "**You are** a technology contracts specialist. Draft a Service Level Agreement between a company and an IT service provider that includes: scope of services, performance metrics, uptime guarantees, response & resolution times, reporting obligations, penalties for breach, confidentiality, data security requirements, and termination clauses. Make it specific enough to hold the vendor accountable while remaining fair and enforceable." Inputs Required from User: Client name & address Vendor name & address Scope of IT services Uptime targets Penalty amounts for non-compliance

11. Prompt 11 — Licensing Agreement for Software Distribution

Licensing Agreement for Software Distribution Backstory: A SaaS startup in Bengaluru has developed a project management tool and wants to license it to corporate clients while retaining full ownership of the source code. The founder wants a licensing agreement that outlines usage rights, restrictions, support terms, and renewal clauses. Goal: Draft a licensing agreement that protects IP while allowing flexible usage. Prompt: "**You are** an intellectual property lawyer in India. Draft a licensing agreement for a SaaS product that includes: scope of license (per-user or company-wide), usage restrictions, payment & renewal terms, software updates & support obligations, confidentiality, intellectual property rights retention, warranty disclaimers, termination terms, and dispute resolution. Ensure clauses are clear and enforceable under Indian law." Inputs Required from User: Licensee name & address Scope of license (e.g., users, locations) License fee & payment terms Support & update frequency

12. Prompt 12 — Supply Agreement for Retail Products

Supply Agreement for Retail Products Backstory: A Mumbai-based organic skincare brand sources raw ingredients from a supplier in Kerala. To prevent supply chain disruptions, they want a supply agreement specifying delivery schedules, quality standards, and pricing terms. Goal: **Create** a binding supply agreement that ensures consistency and timely delivery. Prompt: "**You are** a commercial contracts expert. Draft a supply agreement for retail products that includes: product

specifications, quality control standards, packaging requirements, delivery timelines, pricing & payment terms, inspection rights, remedies for defective goods, force majeure, and termination clauses. Make the terms clear to prevent disputes and maintain long-term relationships." Inputs Required from User: Supplier name & address Product types & specifications Delivery frequency & timelines Payment terms

13. Prompt 13 — Consultancy Agreement for Business Advisors

Consultancy Agreement for Business Advisors Backstory: A real estate development firm is hiring a consultant to advise on market entry strategies for Tier-2 cities in India. The firm wants to define deliverables, fees, and confidentiality obligations clearly. Goal: Draft a consultancy agreement that clearly defines scope, payment, and liability. Prompt: "**You are** a legal advisor specialising in consultancy contracts. Draft a consultancy agreement between a business and an independent consultant that includes: scope of work, deliverables & timelines, consultancy fees & payment terms, confidentiality obligations, intellectual property ownership, indemnity clauses, termination rights, and dispute resolution. Keep it professional yet clear for both parties." Inputs Required from User: Consultant name & address Scope of work details Payment terms Duration of engagement

14. Prompt 14 — Memorandum of Understanding (MoU) for Collaboration

Memorandum of Understanding (MoU) for Collaboration Backstory: Two NGOs want to collaborate on a rural education initiative without forming a formal legal entity yet. They need an MoU outlining roles, responsibilities, funding commitments, and a non-binding statement of intent. Goal: Prepare an MoU that clearly defines collaboration terms while keeping it non-binding. Prompt: "**You are** an NGO legal advisor. Draft a non-binding Memorandum of Understanding for collaboration between two NGOs that includes: purpose of collaboration, roles & responsibilities, funding or resource commitments, timelines, reporting requirements, confidentiality, dispute resolution, and termination rights. Keep it formal yet flexible for potential adjustments." Inputs Required from User: Names & addresses of NGOs Purpose & scope of collaboration Funding/resource commitments Timeline

15. Prompt 15 — Lease Agreement for Commercial Property

Lease Agreement for Commercial Property Backstory: A startup in Hyderabad is leasing office space for three years. They need a lease agreement that covers rent, maintenance, usage restrictions, and renewal options. Goal: **Create** a legally sound lease agreement for commercial property. Prompt: "**You are** a real estate contracts specialist in India. Draft a commercial lease agreement that includes: premises details, lease term, rent amount & payment schedule, security deposit, permitted use, maintenance responsibilities, renewal options, termination clauses, and dispute resolution. Ensure compliance with local property laws." Inputs Required from User: Lessor & lessee details Property address Lease term & rent amount Security deposit amount Renewal terms

16. Prompt 16 — Co-Founder Agreement for a Bootstrapped Startup

Co-Founder Agreement for a Bootstrapped Startup Backstory: Two college friends are starting a health tech company. One is contributing capital, while the other is contributing technical expertise.

They want a contract that clearly defines equity split, responsibilities, vesting schedules, decision-making powers, and exit clauses to avoid future disputes. Goal: Draft a co-founder agreement that protects both parties and outlines operational clarity. Prompt: "**You are** a startup legal consultant. **Create** a detailed co-founder agreement for a health tech startup in India, covering: equity ownership, capital contributions, vesting schedule, founder responsibilities, decision-making process, IP ownership, non-compete clauses, conflict resolution mechanisms, and exit provisions. Format it in legal contract style with clearly numbered clauses." Inputs Required from User: Founder names and roles Equity split percentage Capital & non-cash contributions Jurisdiction of registration

17. Prompt 17 — Freelance Service Agreement for International Clients

Freelance Service Agreement for International Clients Backstory: A graphic designer in Mumbai regularly works with clients from the USA and UK. She wants a standard service agreement that ensures timely payment in foreign currency, ownership rights transfer upon payment, and clauses to handle disputes under international law. Goal: Draft a freelancer-client agreement suitable for cross-border work. Prompt: "**You are** a legal advisor for creative freelancers. Draft a freelance service agreement for an Indian graphic designer working with international clients, covering: scope of work, project timelines, payment currency & method, IP transfer on payment, confidentiality, termination conditions, dispute resolution (international arbitration), and applicable governing law." Inputs Required from User: Client country Payment method (PayPal, bank transfer) Type of design work Average project duration

18. Prompt 18 — Software Development Contract for SaaS Platforms

Software Development Contract for SaaS Platforms Backstory: A SaaS company is outsourcing backend development to an external agency. The founders want a contract that specifies milestones, payment schedules, bug-fixing responsibilities, and ownership of code. Goal: Draft a legally binding software development contract. Prompt: "**You are** a technology contracts specialist. Draft a software development contract for a SaaS company hiring an external agency, covering: detailed project scope, milestone-based payment structure, delivery timelines, quality assurance requirements, bug-fix warranty periods, IP ownership, confidentiality, and termination clauses." Inputs Required from User: Project scope description Development timeline Payment milestones Jurisdiction for disputes

19. Prompt 19 — Non-Compete & Non-Solicitation Agreement

Non-Compete & Non-Solicitation Agreement Backstory: A senior sales executive is leaving a company, and the employer wants to ensure they don't join a direct competitor or poach clients for at least one year post-exit. Goal: Draft a non-compete & non-solicitation agreement enforceable under Indian law. Prompt: "**You are** an employment law specialist. **Create** a non-compete and non-solicitation agreement for a sales executive leaving a company in India, including: definition of 'competitor,' duration of restriction, geographical limitations, client protection clauses, confidentiality terms, and remedies in case of breach." Inputs Required from User: Employee role & seniority Industry sector Restriction duration Restricted territories

20. Prompt 20 — Joint Venture Agreement for Real Estate Development

Joint Venture Agreement for Real Estate Development Backstory: A landowner and a construction firm are partnering to build a commercial complex. The landowner will contribute the plot, and the construction firm will handle development and sales. Goal: Draft a joint venture agreement that clearly defines contributions, revenue share, and dispute handling. Prompt: "**You are** a real estate legal consultant. Draft a joint venture agreement between a landowner and a construction firm for developing a commercial property, covering: ownership structure, capital & land contributions, revenue-sharing model, development timeline, marketing responsibilities, dispute resolution, and exit strategies." Inputs Required from User: Parties involved Land location & valuation Revenue share ratio Development timeline

21. Prompt 21 — White-Label Partnership Agreement

White-Label Partnership Agreement Backstory: A wellness app based in Bengaluru wants to license its platform to a health coach in Delhi who will rebrand it under their own name. The founder wants a white-label agreement that protects IP, sets revenue-sharing terms, and prevents misuse of proprietary technology. Goal: Draft a white-label partnership agreement that clearly defines branding rights, limitations, and payment terms. Prompt: "**You are** a commercial contracts specialist. Draft a white-label partnership agreement for an Indian SaaS wellness platform, covering: scope of license, branding and rebranding rules, technical support responsibilities, revenue-sharing percentages, restrictions on code modification, confidentiality clauses, and termination procedures." Inputs Required from User: Platform name & description Partner's brand name Revenue-sharing structure Duration of license

22. Prompt 22 — Manufacturing & Supply Agreement

Manufacturing & Supply Agreement Backstory: A small D2C skincare brand is outsourcing product manufacturing to a third-party factory in Himachal Pradesh. They need a supply agreement to ensure quality control, timely delivery, and compliance with cosmetic regulations. Goal: Draft a manufacturing & supply contract that safeguards product quality and timelines. Prompt: "**You are** a manufacturing contracts expert. Draft a manufacturing and supply agreement for a D2C skincare brand, covering: product specifications, raw material sourcing, quality control checks, delivery timelines, packaging requirements, regulatory compliance, payment terms, and liability for defective products." Inputs Required from User: Product types Delivery frequency Quality standards Payment schedule

23. Prompt 23 — Confidentiality & Non-Disclosure Agreement for M&A; Talks

Confidentiality & Non-Disclosure Agreement for M&A Talks Backstory: A mid-sized tech company in Hyderabad is in acquisition discussions with a larger multinational. They want an NDA to protect sensitive financial data, trade secrets, and client lists during the due diligence process. Goal: Draft an NDA that ensures mutual confidentiality during M&A negotiations. Prompt: "**You are** a mergers & acquisitions legal advisor. Draft a mutual confidentiality and non-disclosure agreement for two companies engaged in acquisition talks, covering: definition of confidential information, permitted use, duration of confidentiality, return or destruction of data, and remedies for breach." Inputs

Required from User: Parties' names & jurisdictions Duration of confidentiality Scope of information shared Applicable law

24. Prompt 24 — Influencer Collaboration Agreement

Influencer Collaboration Agreement Backstory: A fashion e-commerce platform is partnering with a social media influencer to promote a new ethnic wear collection. The agreement needs to specify content deliverables, posting schedules, usage rights, and FTC compliance guidelines. Goal: Draft an influencer collaboration agreement that protects both brand and influencer interests. Prompt: "You are a media & entertainment contracts expert. Draft an influencer collaboration agreement for a fashion e-commerce brand, covering: content deliverables (videos, posts, stories), posting timeline, payment terms, usage rights for brand marketing, disclosure requirements for sponsored content, exclusivity clauses, and termination terms." Inputs Required from User: Influencer handle & follower count Campaign duration Deliverable formats Payment structure

25. Prompt 25 — Franchise Agreement for Quick-Service Restaurant Chain

Franchise Agreement for Quick-Service Restaurant Chain Backstory: A fast-growing quick-service restaurant brand from Mumbai is franchising its operations in Tier-2 cities. The franchise agreement must outline brand usage, operational guidelines, training support, and royalty structures. Goal: Draft a franchise agreement that ensures brand consistency and operational compliance. Prompt: "You are a franchise law specialist. Draft a franchise agreement for a quick-service restaurant chain in India, covering: territory rights, brand & logo usage, mandatory training programs, menu standardization, royalty and fee structures, audit rights, quality control measures, and renewal/termination procedures." Inputs Required from User: Franchise territory Royalty percentage Training program details Duration of agreement

Regulatory Compliance Checklists

26. Prompt 1 — Startup Compliance Checklist for India

Startup Compliance Checklist for India Backstory: A first-time entrepreneur in Bengaluru is launching a D2C (Direct-to-Consumer) skincare brand. She's aware of legal requirements like GST registration, trademark filing, and product safety certifications but isn't sure about timelines or the order in which to complete them. Missing deadlines could result in fines or legal issues, affecting brand credibility. Goal: Create a step-by-step compliance checklist tailored for Indian startups in the cosmetics sector. Prompt: "You are a compliance consultant for Indian startups. Prepare a detailed regulatory compliance checklist for a newly launched cosmetics brand that includes: company registration, GST registration, trademark application, FSSAI licensing (if applicable), Bureau of Indian Standards (BIS) certifications, labelling requirements, import/export licenses (if sourcing ingredients abroad), periodic tax filings, and annual corporate filings. Structure the checklist chronologically with timelines, responsible parties, and potential penalties for non-compliance." Inputs Required from User: Business type (private limited, LLP, proprietorship) Target market (domestic/export) Product categories Preferred timeline for launch

27. Prompt 2 — Data Protection & Privacy Compliance Checklist (India)

Data Protection & Privacy Compliance Checklist (India) Backstory: An edtech platform collects large amounts of student data, including names, addresses, and progress reports. With the rollout of India's Digital Personal Data Protection Act (DPDPA), the founders need a compliance checklist to ensure all user data is collected, stored, and processed lawfully. Goal: **Build** a practical, actionable checklist for DPDPA compliance. Prompt: "**You are** a data privacy compliance expert in India. **Create** a comprehensive compliance checklist for an edtech company to meet the requirements of the Digital Personal Data Protection Act. **Include:** appointment of a Data Protection Officer (DPO), drafting a privacy policy, obtaining user consent, secure storage & encryption of personal data, breach reporting protocols, periodic audits, and employee training requirements. Present the checklist in a format that allows easy tracking of completed tasks." Inputs Required from User: Industry type Type & volume of personal data collected Data storage location (cloud/on-premise) Number of employees handling personal data

28. Prompt 3 — E-commerce Compliance Checklist

E-commerce Compliance Checklist Backstory: An online fashion retailer operating across India wants to ensure compliance with Consumer Protection (E-commerce) Rules, IT Act provisions, and GST laws. They recently received a customer complaint about misleading product descriptions and want to avoid future violations. Goal: **Create** a compliance checklist that covers e-commerce-specific laws and guidelines. Prompt: "**You are** an e-commerce legal advisor. Draft a detailed compliance checklist for an Indian online retail store to ensure compliance with Consumer Protection (E-commerce) Rules, GST laws, IT Act provisions, and other applicable regulations. Cover areas such as transparent pricing, returns/refund policy, seller verification, accurate product descriptions, secure payment gateways, grievance redressal mechanisms, and mandatory display of company details. **Include** timelines for regular audits and checks." Inputs Required from User: E-commerce platform type (marketplace/inventory-based) Product categories sold Number of sellers onboarded Payment modes offered

29. Prompt 4 — Environmental Compliance Checklist for Manufacturing Units

Environmental Compliance Checklist for Manufacturing Units Backstory: A mid-sized textile manufacturer in Gujarat is expanding production. To operate legally, they need to comply with environmental regulations such as the Air Act, Water Act, and hazardous waste disposal norms. Failure could lead to shutdowns or penalties. Goal: Prepare a manufacturing-focused environmental compliance checklist. Prompt: "**You are** an environmental compliance consultant in India. **Create** a detailed environmental compliance checklist for a textile manufacturing unit that includes: consent to operate from State Pollution Control Board, air & water emission limits, hazardous waste disposal procedures, wastewater treatment plant requirements, renewable energy adoption incentives, periodic reporting formats, and penalties for non-compliance. Arrange the checklist by frequency of compliance (daily, monthly, annually)." Inputs Required from User: State of operation Manufacturing processes used Waste types generated Energy sources used

30. Prompt 5 — Corporate Compliance Calendar for Listed Companies

Corporate Compliance Calendar for Listed Companies Backstory: A publicly listed IT services company needs a compliance calendar to ensure timely SEBI filings, board meetings, shareholder

communications, and annual returns. Missing these can affect stock prices and invite regulatory action. Goal: **Create** a structured, date-based compliance calendar. Prompt: "**You are** a corporate governance specialist. **Develop** a detailed annual compliance calendar for an Indian listed company, covering SEBI disclosures, MCA filings, stock exchange announcements, quarterly financial results, AGM requirements, CSR reporting, and director KYC updates. Format the calendar month-wise with due dates, responsible departments, and penalty risks." Inputs Required from User: Industry sector Financial year start & end dates Stock exchange listings Number of board meetings scheduled annually

31. Prompt 6 — E-Waste Management Compliance Checklist

E-Waste Management Compliance Checklist Backstory: A consumer electronics retailer in Bengaluru has expanded its product line to include refurbished laptops and accessories. Under India's E-Waste Management Rules (2022), they are now required to maintain proper disposal channels, track end-of-life product collection, and submit compliance reports to the Central Pollution Control Board (CPCB). The founder wants a comprehensive checklist to ensure no legal gaps before an upcoming audit. Goal: **Create** a regulatory compliance checklist that ensures adherence to India's e-waste handling and reporting obligations for electronics retailers. Prompt: "**You are** an environmental compliance officer. Prepare a detailed e-waste management compliance checklist for a consumer electronics retailer in India. Cover: product labeling requirements, extended producer responsibility (EPR) registration, customer take-back programs, transportation & disposal documentation, quarterly and annual CPCB reporting, tie-ups with authorized recyclers, penalties for non-compliance, and staff training needs." Inputs Required from User: Product categories handled Annual sales volume Disposal partners (if any) Current compliance status

32. Prompt 7 — Labour Law Compliance Checklist for SMEs

Labour Law Compliance Checklist for SMEs Backstory: A small garment manufacturing unit in Tirupur employs 45 workers, including contract staff. With recent amendments to India's labour codes, the owner is unsure about updated wage requirements, leave policies, and safety obligations. An investor has requested proof of labour law compliance before finalizing funding. Goal: **Create** a step-by-step labour law compliance checklist tailored to small and medium-sized enterprises in India. Prompt: "**You are** a labour law consultant. Draft a comprehensive labour law compliance checklist for an SME in India, covering: minimum wage notifications, working hours, leave entitlements, PF & ESI registration, contract worker agreements, safety standards under the Factories Act, anti-harassment policies, mandatory display requirements, and annual return filings." Inputs Required from User: State of operation Number of employees Nature of contracts (permanent/contractual) Industry type

33. Prompt 8 — Food Safety & Standards Authority of India (FSSAI) Compliance Checklist

Food Safety & Standards Authority of India (FSSAI) Compliance Checklist Backstory: A home-based cloud kitchen in Hyderabad is scaling operations to serve corporate catering. They must upgrade from a basic FSSAI registration to a state license and comply with hygiene, storage, and labeling norms to avoid fines during surprise inspections. Goal: **Create** an FSSAI compliance checklist for small food businesses expanding operations. Prompt: "**You are** a food safety

compliance expert. Draft a detailed FSSAI compliance checklist for a cloud kitchen business in India, covering: license/registration type, kitchen hygiene requirements, storage temperature control, allergen labeling, expiry date marking, employee hygiene protocols, pest control measures, documentation for inspections, and renewal timelines." Inputs Required from User: Cuisine type Scale of operations (meals/day) Current license type Storage facilities available

34. Prompt 9 — Import-Export (EXIM) Compliance Checklist

Import-Export (EXIM) Compliance Checklist Backstory: A handicraft exporter from Jaipur has started selling to buyers in Europe and Southeast Asia. They need a compliance checklist to navigate customs paperwork, DGFT licensing, and export incentives without delays or penalties. Goal: **Create** a regulatory compliance checklist for small exporters in India. Prompt: "**You are** an international trade compliance specialist. Prepare a detailed import-export compliance checklist for a handicraft exporter in India, covering: IEC (Import Export Code) registration, product HS codes, export documentation (invoice, packing list, bill of lading), DGFT filings, customs duties, GST refunds on exports, packaging & labeling requirements, and participation in export promotion schemes." Inputs Required from User: Product type & materials Target countries Export frequency Current certifications

35. Prompt 10 — GST Compliance Checklist for Service Providers

GST Compliance Checklist for Service Providers Backstory: A digital marketing agency in Pune offers services to clients in India and abroad. They need a GST compliance checklist to ensure accurate invoicing, timely return filing, and correct application of export of services rules for zero-rated supplies. Goal: **Develop** a GST compliance checklist specifically for service-oriented businesses. Prompt: "**You are** a taxation compliance expert. Draft a GST compliance checklist for an Indian service provider, covering: GST registration type, correct invoicing format (with HSN/SAC codes), applicability of IGST vs CGST+SGST, return filing deadlines (GSTR-1, GSTR-3B), handling input tax credit, export of services documentation, reconciliation process, and penalties for non-compliance." Inputs Required from User: Type of services offered Client locations (domestic/international) Billing cycle Current GST filing method (monthly/quarterly)

36. Prompt 11 — Cybersecurity Compliance Checklist under India's DPDP Act (2023)

Cybersecurity Compliance Checklist under India's DPDP Act (2023) Backstory: A SaaS startup in Gurugram collects and stores user data from across India, including financial and personal information. With the new Digital Personal Data Protection (DPDP) Act in force, the founders need to ensure full compliance before launching a high-profile B2B product. The CTO wants a granular checklist that covers both technical safeguards and legal obligations to avoid penalties and loss of client trust. Goal: **Create** a cybersecurity compliance checklist aligned with the DPDP Act (2023) and global data protection standards. Prompt: "**You are** a cybersecurity compliance officer. Draft a detailed DPDP Act compliance checklist for an Indian SaaS company, covering: classification of personal data, data processing consent mechanisms, privacy policy requirements, data storage encryption standards, breach notification timelines, data retention & deletion policies, employee access control protocols, and annual third-party security audits." Inputs Required from User: Type of personal data collected Number of data subjects (users) Cloud/on-premise storage model

37. Prompt 12 — Fire Safety Compliance Checklist for Commercial Offices

Fire Safety Compliance Checklist for Commercial Offices Backstory: A co-working space in Mumbai houses 35 small businesses. The property management team wants to implement a fire safety compliance protocol to meet the National Building Code (NBC) of India and local fire department guidelines. They must pass inspection before expanding to another floor. Goal: **Develop** a fire safety compliance checklist for multi-tenant office spaces. Prompt: "**You are** a workplace safety consultant. Prepare a detailed fire safety compliance checklist for a commercial office in India, covering: NBC and local fire authority requirements, installation & maintenance of extinguishers, fire alarm systems, emergency exit signage, evacuation drill frequency, staff fire warden training, maintenance logbooks, and annual certification renewals." Inputs Required from User: Building size & floor count Occupancy capacity Type of businesses housed Current fire safety equipment inventory

38. Prompt 13 — CSR (Corporate Social Responsibility) Compliance Checklist

CSR (Corporate Social Responsibility) Compliance Checklist Backstory: A mid-sized IT firm in Chennai has crossed the threshold under Section 135 of the Companies Act, making CSR spending mandatory. The CSR committee needs a structured checklist to ensure proper selection, execution, and reporting of CSR projects that meet legal criteria and withstand audit scrutiny. Goal: **Create** a CSR compliance checklist to guide corporate governance and statutory adherence. Prompt: "**You are** a CSR compliance advisor. Draft a comprehensive CSR compliance checklist for an Indian company, covering: eligibility determination, CSR committee formation, annual CSR budget calculation, permissible activity categories, partner NGO due diligence, board approvals, implementation tracking, impact assessment, and mandatory disclosures in the annual report." Inputs Required from User: Annual turnover & net profit figures Existing CSR activities (if any) Preferred focus areas (education, health, environment) Projected CSR spend

39. Prompt 14 — Environmental Impact Assessment (EIA) Compliance Checklist

Environmental Impact Assessment (EIA) Compliance Checklist Backstory: A solar panel manufacturing plant in Gujarat is expanding operations. Under the Environment Protection Act and EIA Notification, the company must submit an updated EIA report and comply with environmental clearance (EC) conditions before breaking ground. The project manager needs a step-by-step compliance framework to avoid project delays. Goal: Prepare an EIA compliance checklist for industrial expansion projects in India. Prompt: "**You are** an environmental compliance consultant. **Create** a detailed EIA compliance checklist for an Indian manufacturing plant expansion, covering: screening & scoping process, baseline environmental data collection, public consultation procedures, EIA report structure, EC application filing, mitigation measures, periodic compliance reporting, and post-clearance monitoring." Inputs Required from User: Industry type Project location Expansion scale (capacity increase %) Existing environmental clearance status

40. Prompt 15 — SEBI Compliance Checklist for Listed Companies

SEBI Compliance Checklist for Listed Companies Backstory: A publicly listed fintech firm in India is preparing for its annual general meeting (AGM). The company's legal and investor relations teams must ensure compliance with SEBI's Listing Obligations and Disclosure Requirements (LODR), insider trading regulations, and quarterly reporting mandates to maintain investor trust and avoid penalties. Goal: **Create** a SEBI compliance checklist tailored for listed companies in India. Prompt: "**You are** a securities compliance specialist. Draft a SEBI compliance checklist for a listed company, covering: quarterly and annual disclosures, insider trading prevention measures, AGM notice requirements, corporate governance reports, related-party transaction approvals, board meeting documentation, shareholding pattern filings, and investor grievance redressal mechanisms." Inputs Required from User: Industry sector Board composition details Shareholding structure Upcoming corporate actions

41. Prompt 16 — Labour Law Compliance Checklist for Startups

Labour Law Compliance Checklist for Startups Backstory: A 3-year-old e-commerce startup in Bengaluru has grown to 80 employees and now falls under multiple labour laws, including the Payment of Gratuity Act, the Maternity Benefit Act, and the Shops & Establishments Act. The HR head is overwhelmed trying to track all statutory requirements while managing rapid hiring. Goal: **Create** a labour law compliance checklist to help startups maintain legal HR practices and avoid penalties. Prompt: "**You are** an HR compliance consultant. Draft a comprehensive labour law compliance checklist for an Indian startup with over 50 employees, covering: mandatory employment contracts, working hours & leave policies, statutory registers, employee welfare provisions, social security contributions (EPF, ESI), maternity benefits, gratuity eligibility, sexual harassment policy compliance (POSH Act), and monthly/annual filings." Inputs Required from User: Industry type Employee strength (permanent & contract) Office location(s) Existing HR systems/software

42. Prompt 17 — GST Compliance Checklist for Service-based Businesses

GST Compliance Checklist for Service-based Businesses Backstory: A digital marketing agency in Delhi services clients across India and overseas. While GST registration is complete, the finance team struggles with correctly classifying interstate vs intrastate supplies, claiming input tax credit (ITC), and filing returns on time. Goal: Prepare a GST compliance checklist tailored for service-based firms to avoid interest and penalties. Prompt: "**You are** a GST compliance expert. **Create** a detailed GST compliance checklist for a service-oriented business, covering: registration verification, SAC code classification, GST invoicing rules, advance payment tax treatment, reverse charge mechanism applicability, ITC documentation, monthly GSTR-3B & quarterly GSTR-1 filing schedules, annual return preparation, and reconciliation with accounting records." Inputs Required from User: GST registration type (regular/composition) States of operation Major services offered Software used for billing/accounting

43. Prompt 18 — Import-Export (EXIM) Compliance Checklist

Import-Export (EXIM) Compliance Checklist Backstory: A textile manufacturer in Surat is starting to export products to the Middle East and Europe. They need to comply with India's Foreign Trade Policy, customs regulations, and documentation standards, while also aligning with the buyer's

country requirements to avoid shipment delays. Goal: **Create** an import-export compliance checklist for Indian exporters. Prompt: "**You are** an international trade compliance advisor. Draft a detailed EXIM compliance checklist for an Indian manufacturer, covering: IEC (Import Export Code) registration, export license requirements, HS code classification, product-specific quality certifications, export documentation (invoice, packing list, bill of lading), customs clearance process, payment terms (LC, advance, DP), and DGFT reporting obligations." Inputs Required from User: Product category Export destination countries Shipping method (sea/air) Trade finance arrangements

44. Prompt 19 — Pharmaceutical Regulatory Compliance Checklist

Pharmaceutical Regulatory Compliance Checklist Backstory: A nutraceutical startup in Hyderabad is launching a new line of herbal supplements. They must comply with FSSAI regulations for dietary supplements, advertising guidelines, and GMP (Good Manufacturing Practices) before going to market. Goal: **Develop** a pharmaceutical/nutraceutical compliance checklist for India. Prompt: "**You are** a regulatory affairs specialist. Prepare a compliance checklist for an Indian nutraceutical company, covering: FSSAI licensing, product label & claim approvals, ingredient verification against permitted lists, batch testing protocols, GMP certification, packaging compliance, adverse event reporting, and periodic renewal of licenses." Inputs Required from User: Product formulations Target market (domestic/export) Manufacturing facility type (own/contract) Distribution model

45. Prompt 20 — Non-Profit Organisation (NGO) Compliance Checklist

Non-Profit Organisation (NGO) Compliance Checklist Backstory: An NGO in Lucknow works on rural education projects funded by both domestic and foreign donors. The management must ensure compliance with the Societies Registration Act, Income Tax exemptions under 12A/80G, and FCRA (Foreign Contribution Regulation Act) requirements to continue receiving grants. Goal: **Create** an NGO compliance checklist for Indian charitable organisations. Prompt: "**You are** a non-profit compliance advisor. Draft a comprehensive compliance checklist for an Indian NGO, covering: registration and renewal procedures, FCRA registration & reporting, 12A/80G exemption maintenance, annual audit requirements, donor receipt formats, activity report submissions, utilisation certificate filing, and state-specific NGO rules." Inputs Required from User: Type of registration (society/trust/section 8 company) Sources of funding (domestic/foreign) Annual turnover Number of active projects

46. Prompt 21 — IT & Data Privacy Compliance Checklist

IT & Data Privacy Compliance Checklist Backstory: A fintech startup in Mumbai is collecting sensitive personal and financial data from customers for loan processing. With India's Digital Personal Data Protection (DPDP) Act now in effect, the CTO wants to ensure that all data collection, storage, and sharing practices are compliant, while also maintaining cybersecurity protocols. Goal: **Create** a compliance checklist that ensures adherence to the DPDP Act and IT Act, covering both data privacy and cybersecurity. Prompt: "**You are** a data privacy compliance consultant. Draft a step-by-step IT and data privacy compliance checklist for an Indian fintech company, covering: data classification, privacy notices & consent collection, user rights requests handling, data retention & deletion policies, encryption standards, breach notification procedures, security audit schedules, and vendor data-sharing agreements." Inputs Required from User:

Industry type and services offered Categories of personal data collected Current security measures in place Third-party vendor relationships

47. Prompt 22 — Environmental Compliance Checklist for Manufacturing Units

Environmental Compliance Checklist for Manufacturing Units Backstory: A ceramic tile manufacturer in Morbi, Gujarat, wants to expand production but must comply with environmental laws like the Air (Prevention and Control of Pollution) Act, Water Act, and Hazardous Waste Management Rules. Non-compliance could result in plant shutdowns and hefty fines. Goal: **Develop** an environmental compliance checklist for Indian manufacturing facilities. Prompt: "**You are** an environmental compliance advisor. **Create** a manufacturing plant compliance checklist for India, covering: environmental clearance requirements, pollution control board approvals, emission monitoring protocols, effluent treatment plant (ETP) maintenance, hazardous waste handling & disposal rules, periodic environmental audits, and CSR environmental reporting obligations." Inputs Required from User: Type of manufacturing process Location and applicable state PCB rules Types of waste generated Energy consumption patterns

48. Prompt 23 — Corporate Governance Compliance Checklist for Private Limited Companies

Corporate Governance Compliance Checklist for Private Limited Companies Backstory: A growing tech company in Pune recently received Series A funding. Investors are demanding stronger corporate governance practices to ensure transparency and reduce legal risks. The CFO needs a practical checklist that aligns with the Companies Act, 2013 requirements. Goal: Prepare a governance compliance checklist for private limited companies. Prompt: "**You are** a corporate governance consultant. Draft a governance compliance checklist for a private limited company in India, covering: board meeting requirements, statutory register maintenance, filing of annual returns (MGT-7), director appointment & resignation compliance, shareholder agreement obligations, related-party transaction disclosures, and statutory audit procedures." Inputs Required from User: Company structure (shareholding pattern) Number of directors & board committees Annual turnover Investor agreements in place

49. Prompt 24 — Food Safety Compliance Checklist for Restaurants & Cafes

Food Safety Compliance Checklist for Restaurants & Cafes Backstory: A multi-outlet café chain in Delhi-NCR is planning to expand into Tier-2 cities. Before scaling, they want to ensure strict adherence to FSSAI guidelines to avoid license suspension or customer complaints. Goal: **Create** a food safety compliance checklist to be used across all outlets. Prompt: "**You are** a food safety compliance officer. Prepare a checklist for a multi-location café chain in India, covering: FSSAI licensing & renewal, hygiene and sanitation SOPs, food handler training, temperature control for storage & cooking, pest control schedules, allergen disclosure requirements, packaging & labeling rules, and food waste disposal compliance." Inputs Required from User: Type of cuisine/menu items Number of outlets & locations Supply chain model (central kitchen/local sourcing) Existing safety inspection records

50. Prompt 25 — Annual Legal & Compliance Health Check for SMEs

Annual Legal & Compliance Health Check for SMEs Backstory: A small IT services firm in Chennai has been operating for 6 years but has never done a comprehensive compliance health check. The founder now wants a yearly review process to ensure the company is fully compliant with all laws — corporate, labour, tax, and sector-specific. Goal: **Develop** a comprehensive annual legal and compliance audit checklist for SMEs. Prompt: "**You are** an SME compliance auditor. Draft a one-stop annual compliance health check checklist for an Indian SME, covering: company law filings, tax compliance (income tax, GST, TDS), labour law adherence, sector-specific licenses, contract review procedures, intellectual property renewals, environmental/safety requirements, and risk assessment documentation." Inputs Required from User: Industry sector Company size (revenue & employees) Locations of operation Past compliance audit history

Privacy policy & T&C; generation

51. Prompt 1 — E-commerce Website Privacy Policy Draft (India-specific)

E-commerce Website Privacy Policy Draft (India-specific) Backstory: A 29-year-old entrepreneur in Bengaluru is launching a home décor e-commerce platform targeting urban millennials. The website collects customer data such as names, addresses, payment details, and browsing history to personalize recommendations and process orders. Since the Digital Personal Data Protection (DPDP) Act, 2023 is now enforceable in India, the founder wants a clear, legally compliant privacy policy that builds user trust and avoids penalties. Goal: **Create** a privacy policy tailored for an Indian e-commerce business that covers all DPDP Act requirements, explains data usage clearly, and instills confidence in customers. Prompt: "**You are** a legal content specialist for Indian startups. Draft a Privacy Policy for an Indian e-commerce website that complies with the DPDP Act, IT Act, and Consumer Protection (E-Commerce) Rules. Structure it with clear headings: Introduction, Information Collected, Purpose of Data Processing, Data Sharing & Third Parties, Cookies & Tracking Tools, User Rights (Access, Correction, Deletion), Data Retention Periods, Security Measures, International Data Transfers, and Contact Details for Grievance Redressal. Ensure plain language, mobile-friendly formatting, and no legal jargon for general readers." Inputs Required from User: Nature of e-commerce products/services Types of personal and sensitive data collected Data storage & encryption practices Third-party integrations (payment gateways, analytics tools) Customer grievance contact point

52. Prompt 1 — E-commerce Website Privacy Policy Draft (India-specific)

Backstory: A 29-year-old entrepreneur in Bengaluru is launching a home décor e-commerce platform targeting urban millennials. The website collects customer data such as names, addresses, payment details, and browsing history to personalize recommendations and process orders. Since the Digital Personal Data Protection (DPDP) Act, 2023 is now enforceable in India, the founder wants a clear, legally compliant privacy policy that builds user trust and avoids penalties. Goal: Create a privacy policy tailored for an Indian e-commerce business that covers all DPDP Act requirements, explains data usage clearly, and instills confidence in customers. Prompt: "You are a legal content specialist for Indian startups. Draft a Privacy Policy for an Indian e-commerce website that complies with the DPDP Act, IT Act, and Consumer

Protection (E-Commerce) Rules. Structure it with clear headings: Introduction, Information Collected, Purpose of Data Processing, Data Sharing & Third Parties, Cookies & Tracking Tools, User Rights (Access, Correction, Deletion), Data Retention Periods, Security Measures, International Data Transfers, and Contact Details for Grievance Redressal. Ensure plain language, mobile-friendly formatting, and no legal jargon for general readers." Inputs Required from User: Nature of e-commerce products/services Types of personal and sensitive data collected Data storage & encryption practices Third-party integrations (payment gateways, analytics tools) Customer grievance contact point

E-commerce Website Privacy Policy Draft (India-specific) Backstory: A 29-year-old entrepreneur in Bengaluru is launching a home décor e-commerce platform targeting urban millennials. The website collects customer data such as names, addresses, payment details, and browsing history to personalize recommendations and process orders. Since the Digital Personal Data Protection (DPDP) Act, 2023 is now enforceable in India, the founder wants a clear, legally compliant privacy policy that builds user trust and avoids penalties. Goal: **Create** a privacy policy tailored for an Indian e-commerce business that covers all DPDP Act requirements, explains data usage clearly, and instills confidence in customers. Ensure plain language, mobile-friendly formatting, and no legal jargon for general readers." Inputs Required from User: Nature of e-commerce products/services Types of personal and sensitive data collected Data storage & encryption practices Third-party integrations (payment gateways, analytics tools) Customer grievance contact point

53. Prompt 3 — Privacy Policy for EdTech Platform Serving Minors

Privacy Policy for EdTech Platform Serving Minors Backstory: An EdTech startup in Hyderabad offers live classes for school children. The platform collects personal data from students under 18, including their names, age, school details, recorded class sessions, and parents' contact info. Since the DPDP Act and COPPA-equivalent protections for minors are becoming stricter, the founders want a privacy policy that ensures parental consent, limited data retention, and safe online interaction between students and teachers. Goal: Draft a privacy policy for an Indian EdTech platform catering to minors that ensures compliance with child data protection standards. Prompt: **"You are** a child data protection specialist. Draft a privacy policy for an Indian EdTech platform that collects information from minors. **Include:** Scope & Applicability, Data Collection Practices, Parental Consent Process, Data Sharing Limits, Security Measures for Live Video & Chat Features, Retention Periods for Recorded Content, Rights of Parents/Guardians, and Contact Information. Ensure the language is friendly, simple, and understandable for parents while meeting DPDP Act requirements." Inputs Required from User: Age group of students served Data points collected Storage & deletion policies for video classes Parental consent workflow Third-party education tools integrated

54. Prompt 4 — SaaS B2B Privacy Policy with Global Client Base

SaaS B2B Privacy Policy with Global Client Base Backstory: A Pune-based SaaS company provides CRM tools to clients in India, the US, and Europe. It collects both client business data and personal data of their customers. Since the business serves multiple jurisdictions, the privacy policy must comply with India's DPDP Act, GDPR (EU), and CCPA (California). The CTO wants a single unified privacy policy that covers cross-border data transfers, multiple regulatory frameworks, and security certifications. Goal: Draft a privacy policy for a global SaaS provider based in India, harmonizing compliance with Indian and international laws. Prompt: "**You are** a global privacy compliance consultant. Draft a privacy policy for a SaaS CRM platform with an international client base. Address: Types of Data Collected, Legal Basis for Processing (per jurisdiction), Cross-border Data Transfers & Safeguards, Third-party Hosting Providers, Data Security Measures (ISO/IEC 27001 compliance), User Rights (DPDP, GDPR, CCPA), Data Retention Timelines, and Contact Details for Multi-region Support. Ensure clarity for both Indian and foreign clients." Inputs Required from User: Client locations & markets served Data hosting locations Security certifications in place Cross-border transfer mechanisms (SCCs, adequacy) Support contact information

55. Prompt 5 — Privacy Policy for Fintech Lending App

Privacy Policy for Fintech Lending App Backstory: A Mumbai-based digital lending platform collects sensitive financial data such as PAN, Aadhaar, bank statements, and credit scores from customers to process instant loans. RBI guidelines require explicit disclosure of data handling practices, and the DPDP Act demands user consent before collection. The founder needs a privacy policy that reassures customers about security while satisfying RBI and legal obligations. Goal: Draft a privacy policy for an Indian fintech lending app with strong emphasis on financial data security and RBI compliance. Prompt: "**You are** a fintech legal compliance expert. Draft a privacy policy for a digital lending application in India that complies with the DPDP Act, IT Act, RBI's Digital Lending Guidelines, and relevant KYC norms. **Include** sections for: Data Collection & Use, Consent Mechanisms, Data Storage & Encryption, Data Sharing with NBFC Partners, User Rights & Complaint Handling, Retention & Deletion Policies, and Security Audit Practices. Write in customer-friendly language with clear disclosures." Inputs Required from User: Loan processing workflow Types of KYC and financial data collected Partnerships with NBFCs or banks Data storage & security measures Complaint redressal contact info

56. Prompt 6 — Privacy Policy for Telemedicine Platform

Privacy Policy for Telemedicine Platform Backstory: A telemedicine startup in Kochi offers online doctor consultations and digital prescriptions. The platform stores sensitive health information, patient IDs, consultation recordings, and prescription history. It also integrates with pharmacies and diagnostic labs. With telemedicine guidelines from the Medical Council of India and the DPDP Act in effect, the co-founders want a privacy policy that reassures patients, clearly outlines third-party integrations, and meets medical confidentiality standards. Goal: Draft a privacy policy for an Indian telemedicine service that is compliant with both health sector rules and data privacy laws. Prompt: "**You are** a healthcare data privacy consultant. Draft a privacy policy for a telemedicine platform in India, covering: Data Collected (health records, prescriptions, consultation recordings), Purpose & Use, Consent & Withdrawal Process, Data Sharing with Pharmacies & Labs, Security Measures for Video Consultations, Retention Periods for Medical Records, Patient Rights (access, correction, deletion), and Contact Details for Grievance Handling. Write in clear, non-technical language suitable for patients." Inputs Required from User: Types of medical data stored Third-party service providers (labs, pharmacies) Storage & encryption practices Retention timelines for patient data

57. Prompt 7 — Privacy Policy for Real Estate Aggregator Platform

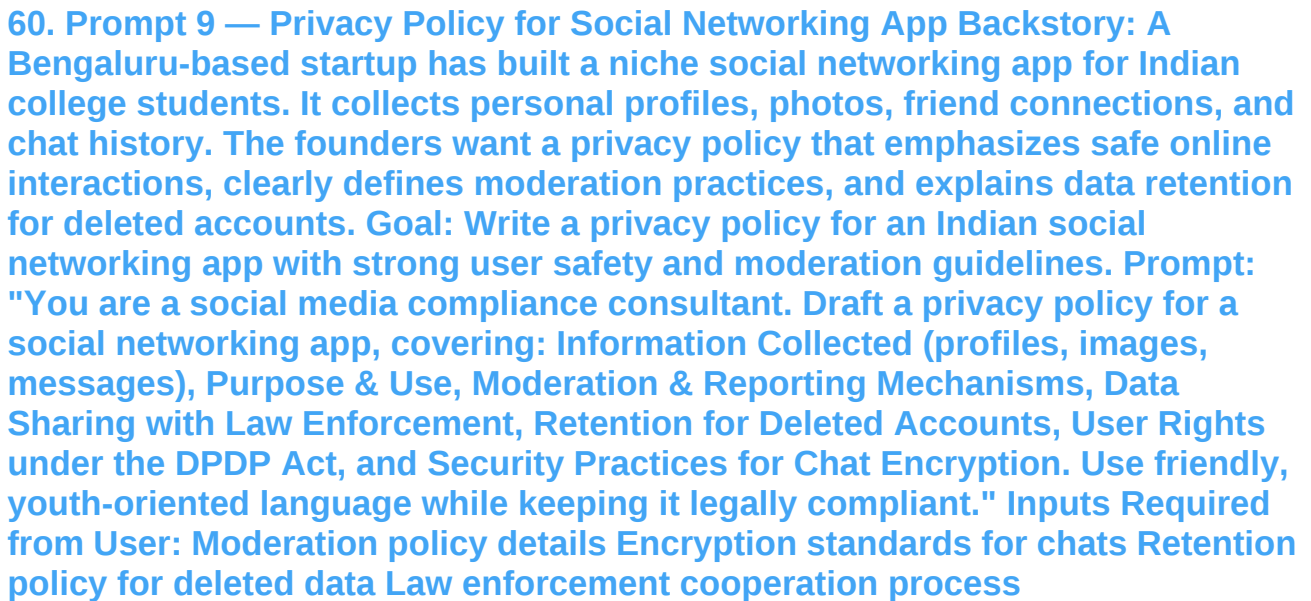

Privacy Policy for Real Estate Aggregator Platform Backstory: A Noida-based real estate portal connects buyers, sellers, and brokers. It collects user profile data, location information, property search history, and uploaded property documents. Since users often share sensitive personal details like ID proofs and bank info during transactions, the company wants a privacy policy that covers verification processes, data storage, and fraud prevention measures. Goal: **Create** a privacy policy for an Indian property listing and brokerage platform that inspires user trust and complies with DPDP Act norms. Prompt: "**You are** a real estate legal compliance expert. Draft a privacy policy for an Indian real estate aggregator website, covering: Data Collected (identity, property documents, transaction details), Purpose of Collection, Fraud Prevention Mechanisms, Data Sharing with Verified Brokers, Retention & Deletion Policies, User Rights under the DPDP Act, and Grievance Redressal Process. Use straightforward language to reassure users." Inputs Required from User: Verification process details Types of documents collected Data sharing with third parties Fraud detection measures Retention policy

58. Prompt 8 — Privacy Policy for Food Delivery App

Privacy Policy for Food Delivery App Backstory: A Chennai-based food delivery startup collects customer addresses, GPS location, payment data, and order history. It also tracks delivery personnel through GPS. With concerns about customer location data misuse, the startup needs a privacy policy that explains exactly how location tracking works and ensures transparency in sharing data with restaurants and delivery partners. Goal: Draft a privacy policy for an Indian food delivery platform that clearly addresses location tracking and payment security. Prompt: "**You are** a digital platform privacy advisor. Draft a privacy policy for an Indian food delivery application, covering: Personal & Location Data Collected, Purpose of Tracking, Sharing Data with Restaurants & Delivery Partners, Payment Information Security, Data Retention Timelines, User Rights & Opt-out Mechanisms, and Grievance Contact Info. Write in a concise, mobile-friendly format." Inputs Required from User: GPS tracking policies Payment gateway details Data retention duration Third-party sharing practices Support contact info

59. Prompt 9 — Privacy Policy for Social Networking App

Privacy Policy for Social Networking App Backstory: A Bengaluru-based startup has built a niche social networking app for Indian college students. It collects personal profiles, photos, friend connections, and chat history. The founders want a privacy policy that emphasizes safe online interactions, clearly defines moderation practices, and explains data retention for deleted accounts. Goal: Write a privacy policy for an Indian social networking app with strong user safety and moderation guidelines. Prompt: "**You are** a social media compliance consultant. Draft a privacy policy for a social networking app, covering: Information Collected (profiles, images, messages), Purpose & Use, Moderation & Reporting Mechanisms, Data Sharing with Law Enforcement, Retention for Deleted Accounts, User Rights under the DPDP Act, and Security Practices for Chat Encryption. Use friendly, youth-oriented language while keeping it legally compliant." Inputs Required from User: Moderation policy details Encryption standards for chats Retention policy for deleted data Law enforcement cooperation process

<https://doi.org/10.1016/j.sbsbs.2023.100001>

Privacy Policy for Online Job Portal Backstory: A Gurugram-based recruitment platform matches job seekers with employers. It collects résumés, educational records, work history, salary expectations, and sometimes Aadhaar/PAN for background checks. The founders are concerned about data leaks and want a privacy policy that reassures both candidates and employers while meeting compliance standards. Goal: **Create** a privacy policy for an Indian job portal that protects sensitive career and identity data. Prompt: "**You are** a recruitment compliance advisor. Draft a privacy policy for an Indian job portal, covering: Data Collected from Candidates & Employers, Purpose of Processing, Data Sharing with Verified Employers, Retention Policies for Inactive Accounts, Background Verification Practices, Security Measures, User Rights under the DPDP Act, and Grievance Contact Information." Inputs Required from User: Verification process details Retention period for inactive accounts Third-party background check vendors Security protocols

Privacy Policy for Digital Payment App Backstory: A Mumbai-based fintech company runs a UPI-enabled wallet app that stores transaction histories, bank details, and KYC documents. The company wants a transparent privacy policy explaining how financial data is protected, especially with RBI guidelines in mind. Goal: Write a privacy policy for a digital payment platform in India that's compliant with RBI security and DPDP Act requirements. Prompt: "**You are** a fintech compliance consultant. Draft a privacy policy for an Indian payment app, covering: Transaction Data Handling, KYC Document Storage, Fraud Detection Practices, Data Sharing with Banking Partners, RBI & DPDP Compliance, Data Retention, and User Rights. Write in simple, jargon-free language to build trust." Inputs Required from User: Payment gateway integrations Fraud detection mechanisms Data encryption practices KYC process details

63. Prompt 13 — Privacy Policy for NGO Donation Platform

Privacy Policy for NGO Donation Platform Backstory: A Delhi-based non-profit runs an online donation portal for social causes. It collects donor names, addresses, PAN numbers (for tax receipts), and payment details. The NGO needs a privacy policy that assures donors their details are safe and will not be sold or misused. Goal: Draft a privacy policy for a donation platform that focuses on donor trust and compliance with data protection laws. Prompt: "**You are** a non-profit legal advisor. Draft a privacy policy for an NGO's donation portal, covering: Donor Data Collection & Purpose, Payment Data Security, PAN & Tax Receipt Handling, Data Sharing with Regulatory Authorities (if required), Retention Periods, and Contact Details for Queries." Inputs Required from User: Donation processing methods Data sharing with auditors or authorities Payment gateway used Data retention policy

64. Prompt 14 — Privacy Policy for Subscription-based Streaming Platform

Privacy Policy for Subscription-based Streaming Platform Backstory: A Bengaluru-based OTT platform offers regional language content. It collects viewer profiles, watch history, device information, and payment details. The founders want a privacy policy that's compliant with Indian IT rules and addresses user profiling concerns. Goal: **Create** a privacy policy for a subscription streaming service in India. Prompt: "**You are** a digital media legal consultant. Draft a privacy policy for an Indian streaming platform, covering: User Data Collected, Purpose of Profiling & Recommendations, Payment Information Handling, Device Tracking Policies, Data Retention, and User Rights. Ensure transparency around how algorithms use viewer data." Inputs Required from User: Recommendation engine details Payment processors used Device tracking methods Retention timelines

65. Prompt 15 — Privacy Policy for Online Travel Booking Portal

Privacy Policy for Online Travel Booking Portal

66. Prompt 16 — Privacy Policy for Crowdfunding Platform

Privacy Policy for Crowdfunding Platform Backstory: A Hyderabad-based crowdfunding portal collects donor details, campaign creator profiles, and payment transactions. It must ensure transparency around how donor and campaign data is stored, displayed, and shared. Goal: Draft a

privacy policy for a crowdfunding site that protects both donors and campaign creators. Prompt: "**You are** a fintech and legal compliance expert. Draft a privacy policy for an Indian crowdfunding platform, covering: Donor Data Privacy, Campaign Creator Verification, Display of Public Information, Payment Security, Retention Policies, and DPDP Compliance." Inputs Required from User: Campaign creator verification process Public vs. private data display rules Payment handling methods Retention policy

67. Prompt 17 — Privacy Policy for Ride-hailing App

Privacy Policy for Ride-hailing App Backstory: An Ahmedabad-based ride-hailing service collects GPS location data, driver details, and payment history. Riders are increasingly concerned about how their location history is stored and shared. Goal: Write a privacy policy for a ride-hailing app that ensures location tracking transparency. Prompt: "**You are** a mobility services compliance advisor. Draft a privacy policy for an Indian ride-hailing service, covering: Real-Time Location Tracking, Driver & Passenger Data Handling, Data Sharing with Law Enforcement, Payment Security, Retention Timelines, and User Rights." Inputs Required from User: Location data retention policy Payment gateway integrations Data sharing with authorities Driver onboarding verification

68. Prompt 18 — Privacy Policy for Online Marketplace for Handicrafts

Privacy Policy for Online Marketplace for Handicrafts Backstory: A Jaipur-based marketplace sells handmade goods from rural artisans. It stores buyer and seller profiles, bank details for seller payouts, and transaction history. Goal: Draft a privacy policy for an online handicraft marketplace in India. Prompt: "**You are** an e-commerce compliance specialist. Draft a privacy policy for a handicraft marketplace, covering: Buyer & Seller Data Collection, Payment & Bank Info Handling, Data Sharing with Logistics Partners, Retention Policies, and DPDP Compliance." Inputs Required from User: Bank payout process details Logistics data sharing rules Retention period Payment processor used

69. Prompt 19 — Privacy Policy for Dating App

Privacy Policy for Dating App Backstory: A Mumbai-based dating app collects personal details, location, chat history, and profile photos. It also uses AI to suggest matches. Goal: Write a privacy policy for an Indian dating app with strong emphasis on user consent and safety. Prompt: "**You are** an online safety compliance consultant. Draft a privacy policy for a dating app in India, covering: Data Collected, Purpose of AI-based Matchmaking, Location Tracking Policies, Security for Chat History & Photos, Retention Timelines, and User Rights." Inputs Required from User: AI recommendation details Retention of deleted data Location tracking practices Safety reporting process

70. Prompt 20 — Privacy Policy for Fitness & Wellness App

Privacy Policy for Fitness & Wellness App Backstory: A Delhi-based health and fitness app tracks workouts, diet logs, and integrates with wearable devices. Since it collects health-related data, it needs a policy aligned with health data privacy norms. Goal: **Create** a privacy policy for a wellness app in India. Prompt: "**You are** a wellness tech compliance advisor. Draft a privacy policy for a

health & fitness app, covering: Data Collected (workouts, diet, wearable sync), Purpose, Third-Party Sharing (nutritionists, trainers), Security Measures, Retention Policies, and User Rights." Inputs Required from User: Wearable integrations used Retention period for health logs Trainer/nutritionist data sharing rules Encryption practices

71. Prompt 21 — T&C; for SaaS Productivity Tool

T&C for SaaS Productivity Tool Backstory: A Chennai-based SaaS platform offers task management software to corporates. They want Terms & Conditions that clearly define usage rights, subscription terms, and liability limitations. Goal: Draft Terms & Conditions for an Indian SaaS platform. Prompt: "**You are** a SaaS contract drafting expert. Draft T&C for a productivity SaaS tool, covering: User License Terms, Subscription & Renewal Policies, Limitations of Liability, Data Ownership, Termination Clause, and Governing Law (India)." Inputs Required from User: Subscription model details Data ownership policy Termination triggers Refund policy

72. Prompt 22 — T&C; for Online Retail Store

T&C for Online Retail Store Backstory: An Indore-based fashion retailer sells products via their own website. They need T&C covering orders, returns, and disputes. Goal: Write Terms & Conditions for an Indian online retail store. Prompt: "**You are** an e-commerce legal consultant. Draft T&C for an Indian retail site, covering: Ordering Process, Payment Terms, Return/Refund Policy, Delivery Timelines, and Governing Law." Inputs Required from User: Return & refund window Shipping policies Payment gateways used Dispute resolution mechanism

73. Prompt 23 — T&C; for Event Ticketing Platform

T&C for Event Ticketing Platform Backstory: A Bengaluru-based ticketing site sells passes for concerts and sports events. They need T&C addressing cancellations and resales. Goal: Draft T&C for an event ticketing platform in India. Prompt: "**You are** an events compliance consultant. Draft T&C for an Indian ticketing site, covering: Ticket Purchase Terms, Cancellation/Refund Rules, Resale Restrictions, Event Changes/Cancellations, and Governing Law." Inputs Required from User: Refund policy timeline Event change notification process Ticket transfer rules Delivery method (digital/physical)

74. Prompt 24 — T&C; for Digital Marketing Agency Website

T&C for Digital Marketing Agency Website Backstory: A marketing agency in Kolkata offers SEO, PPC, and branding services. They need T&C that covers service scope and payment terms. Goal: Write Terms & Conditions for a marketing services website. Prompt: "**You are** a business contract consultant. Draft T&C for a digital marketing agency in India, covering: Scope of Services, Payment Schedule, Client Responsibilities, Confidentiality, Termination, and Governing Law." Inputs Required from User: Service packages offered Payment milestones Confidentiality clauses Termination notice period

T&C for Mobile Gaming App Backstory: A Hyderabad-based gaming studio has launched a mobile game with in-app purchases. They need T&C to cover virtual goods, user conduct, and dispute resolution. Goal: Draft Terms & Conditions for an Indian mobile game. Prompt: "**You are** a gaming industry legal advisor. Draft T&C for a mobile game, covering: User Conduct Rules, Virtual Goods Ownership, Payment Terms, Refunds (if any), and Governing Law." Inputs Required from User: Virtual currency usage rules Refund policy Age restrictions User reporting mechanism

Tender Documentation Guides

76. Prompt 1 — Government Supply Tender Submission Guide

Government Supply Tender Submission Guide Backstory: A manufacturing company in Pune produces eco-friendly office furniture. They've spotted a Central Government tender for supplying workstations to a ministry. This is their first time participating in a government e-procurement process, and they're overwhelmed by the paperwork — EMD, technical bids, financial bids, compliance certificates, and past performance records. They want a clear, step-by-step guide to ensure a flawless submission. Goal: **Create** a structured tender submission checklist for a first-time government supplier. Prompt: "**You are** a government procurement consultant. Draft a step-by-step tender documentation guide for an Indian SME bidding for a central government contract, covering: e-procurement portal registration, document verification, EMD submission, technical bid requirements, financial bid format, compliance certificate preparation, and final submission protocols." Inputs Required from User: Tender issuing department Product/service category Tender value Submission deadline

77. Prompt 2 — EPC Project Tender Preparation Guide

EPC Project Tender Preparation Guide Backstory: A mid-sized engineering firm in Hyderabad is bidding for an EPC (Engineering, Procurement & Construction) project under a state public works department. The tender demands detailed technical drawings, project execution timelines, safety compliance documents, and proof of similar past projects. The project manager needs a documentation template to assemble all requirements. Goal: **Create** a comprehensive tender document checklist for EPC project bids. Prompt: "**You are** a construction tender specialist. Prepare a tender documentation guide for an EPC project bid in India, covering: eligibility documents, technical specifications, execution timelines, resource deployment plans, quality & safety compliance documents, price bid structure, and annexure preparation." Inputs Required from User: Scope of EPC work Past project references Safety certifications held Estimated project duration

78. Prompt 3 — Service Outsourcing Tender Bid Guide

Service Outsourcing Tender Bid Guide Backstory: An IT outsourcing company in Bengaluru is bidding for a municipal corporation's data digitization project. The tender specifies staff qualification requirements, software security protocols, and service level agreements (SLAs). The business development team needs a clear plan to present their bid professionally and ensure compliance. Goal: **Create** a tender preparation guide for IT outsourcing service providers. Prompt: "**You are** an

IT procurement advisor. Draft a tender documentation checklist for an outsourcing bid, covering: company profile preparation, SLA drafting, staff qualification proof, cybersecurity compliance documents, pilot project proposal, financial bid format, and submission schedule." Inputs Required from User: Number of staff proposed SLA terms offered Security compliance standards met Project timeline

79. Prompt 4 — Infrastructure Maintenance Tender Guide

Infrastructure Maintenance Tender Guide Backstory: A facilities management company in Delhi is bidding for an airport maintenance contract. The tender requires detailed cleaning schedules, equipment maintenance logs, manpower deployment charts, and safety protocols for high-traffic public areas. The operations head wants a standardized template to ensure every document is complete. Goal: Prepare a maintenance tender documentation checklist for large public infrastructure projects. Prompt: "**You are** a facilities contract consultant. Draft a tender documentation guide for an airport maintenance contract, covering: cleaning & maintenance SOPs, manpower rosters, equipment maintenance schedules, safety compliance plans, and cost breakdowns for each service category." Inputs Required from User: Types of maintenance services offered Equipment list Staffing plan Safety certifications

80. Prompt 5 — Defence Supply Tender Compliance Guide

Defence Supply Tender Compliance Guide Backstory: A defence equipment supplier in Pune is bidding for a Ministry of Defence contract to supply specialized tactical gear. The tender requires strict adherence to procurement rules, security clearance certificates, and quality testing reports from accredited labs. The company needs a compliance-oriented documentation plan. Goal: **Develop** a tender documentation checklist for defence supply contracts. Prompt: "**You are** a defence procurement compliance expert. Draft a tender documentation guide for supplying tactical equipment to the Ministry of Defence, covering: vendor registration on defence procurement portals, security clearance processes, product quality certification, past performance documentation, and pricing formats." Inputs Required from User: Type of defence gear supplied Quality testing certifications Security clearance status Prior defence contract references

81. Prompt 6 — Healthcare Equipment Supply Tender Guide

Healthcare Equipment Supply Tender Guide Backstory: A Mumbai-based medical equipment distributor wants to bid for a state government tender to supply ventilators to district hospitals. The tender requires detailed product technical sheets, certifications from medical device regulators, proof of past installations, and service maintenance contracts. Since the healthcare sector is highly regulated, the company must ensure every document meets medical compliance norms. Goal: Prepare a detailed tender documentation checklist for healthcare equipment supply. Prompt: "**You are** a healthcare procurement consultant. Draft a tender documentation guide for a company supplying ventilators to Indian government hospitals, covering: product technical specification sheets, BIS & CDSCO certifications, proof of past installations, warranty & AMC agreements, delivery schedules, and cost break-up." Inputs Required from User: Type & model of equipment Certifications held (BIS, CDSCO, CE) Past installation references Service & warranty terms

82. Prompt 7 — Renewable Energy Project Tender Guide

Renewable Energy Project Tender Guide Backstory: A solar energy startup in Jaipur is bidding for a government contract to install rooftop solar systems in schools. The tender mandates detailed energy generation projections, safety compliance reports, installation timelines, and financial viability documents. The founders need a step-by-step documentation framework. Goal: **Create** a solar energy project tender preparation guide. Prompt: "**You are** a renewable energy tender specialist. Draft a documentation checklist for bidding in a government solar installation project, covering: eligibility criteria, energy output projections, safety compliance reports, technical team profiles, funding & financial stability proofs, installation timelines, and maintenance commitments." Inputs Required from User: Capacity of installation Funding sources Technical team qualifications Safety certifications

83. Prompt 8 — NGO Grant Tender Proposal Guide

NGO Grant Tender Proposal Guide Backstory: A non-profit in Bengaluru focuses on rural education and is applying for a CSR grant tender floated by a PSU. The tender requires a detailed project proposal, impact measurement framework, legal compliance proof under FCRA (if foreign funds involved), and past project success stories. Goal: Prepare a grant tender documentation guide for NGOs. Prompt: "**You are** a non-profit tender consultant. Draft a grant tender preparation guide for an NGO applying for a CSR funding tender, covering: project proposal drafting, budget breakdown, monitoring & evaluation framework, legal compliance documents (FCRA, 12A, 80G), impact case studies, and reporting formats." Inputs Required from User: Nature of project Target beneficiaries Past impact reports Legal compliance documents

84. Prompt 9 — IT Infrastructure Tender Guide

IT Infrastructure Tender Guide Backstory: An IT hardware company in Noida is bidding for a government project to supply and install servers and networking equipment. The tender requires detailed technical configurations, OEM authorizations, warranty details, and network security compliance documents. Goal: **Create** a tender guide for IT infrastructure supply projects. Prompt: "**You are** an IT procurement advisor. Draft a tender documentation checklist for supplying servers & networking hardware to a government department, covering: technical specification sheets, OEM authorization letters, warranty & AMC terms, installation plans, and security compliance documentation." Inputs Required from User: Type of IT equipment OEM partnership details Installation capabilities Warranty & support terms

85. Prompt 10 — Event Management Tender Guide

Event Management Tender Guide Backstory: An event company in Delhi wants to bid for a state tourism department tender to organize a cultural festival. The tender needs venue plans, artist rosters, stage & lighting specifications, safety arrangements, and financial proposals. Goal: **Develop** a documentation guide for event management tenders. Prompt: "**You are** an event tender consultant. Draft a tender documentation checklist for a government cultural festival contract, covering: event concept proposal, venue layout plans, artist & vendor agreements, stage & lighting specs, safety compliance measures, and budget proposals." Inputs Required from User: Event

theme & size Venue details Artist/vendor partnerships Safety protocols

86. Prompt 11 — Public Transport Tender Guide

Public Transport Tender Guide Backstory: A bus manufacturing company in Chennai is bidding for a municipal corporation tender to supply electric buses. The tender specifies vehicle technical specs, battery performance certifications, charging infrastructure plans, and after-sales service guarantees. Goal: Prepare a documentation checklist for public transport supply tenders. Prompt: "You are a transport procurement consultant. Draft a tender documentation guide for supplying electric buses, covering: vehicle technical specifications, battery performance certifications, charging infrastructure plans, after-sales service commitments, and cost schedules." Inputs Required from User: Vehicle model & specs Battery supplier details Service center locations Warranty terms

87. Prompt 12 — Hospitality Service Tender Guide

Hospitality Service Tender Guide Backstory: A catering and housekeeping company in Goa is bidding for a tender to manage services at a government guesthouse. The tender asks for manpower deployment plans, food safety certifications, housekeeping SOPs, and equipment lists. Goal: Create a tender documentation guide for hospitality service contracts. Prompt: "You are a hospitality contract consultant. Draft a tender documentation checklist for managing a government guesthouse, covering: staff deployment rosters, FSSAI certifications, housekeeping SOPs, equipment inventory lists, and financial bid formats." Inputs Required from User: Staffing numbers Service scope Certifications held Equipment available

88. Prompt 13 — Road Construction Tender Guide

Road Construction Tender Guide Backstory: A civil contractor in Indore wants to bid for a national highway construction project. The tender requires design blueprints, material sourcing details, machinery deployment schedules, and safety compliance plans. Goal: Draft a tender guide for large-scale road construction projects. Prompt: "You are a civil works tender expert. Draft a tender documentation checklist for highway construction, covering: design blueprints, material sourcing plans, equipment deployment schedules, workforce safety measures, and cost estimates." Inputs Required from User: Project length & scope Material suppliers Machinery availability Workforce safety plans

89. Prompt 14 — Water Supply Project Tender Guide

Water Supply Project Tender Guide Backstory: A water infrastructure company in Ahmedabad is bidding for a state water board tender to install pipelines. The tender demands technical layouts, environmental clearance certificates, and proof of past municipal projects. Goal: Create a documentation guide for water supply tenders. Prompt: "You are an infrastructure procurement consultant. Draft a tender documentation checklist for a water pipeline installation project, covering: technical drawings, environmental clearances, project execution timelines, and quality control protocols." Inputs Required from User: Project area coverage Pipe specifications Environmental impact reports Past project records

90. Prompt 15 — Defence Supply Tender Guide

Defence Supply Tender Guide Backstory: A defence equipment supplier in Pune is bidding for a Ministry of Defence tender to provide tactical communication devices. The tender requires DRDO-approved product specifications, secure communication compliance documents, and proof of defence project experience. The process is highly regulated, with strict submission formats and security clearances. Goal: Prepare a tender documentation checklist for defence supply contracts. Prompt: "**You are** a defence procurement specialist. Draft a tender documentation guide for supplying tactical communication devices to the Ministry of Defence, covering: DRDO product approval certificates, secure communication compliance documentation, proof of past defence contracts, production capacity statements, and delivery timelines." Inputs Required from User: Product type & specifications Defence clearances held Past defence project records Manufacturing capacity details

91. Prompt 16 — Real Estate Development Tender Guide

Real Estate Development Tender Guide Backstory: A real estate company in Hyderabad is bidding for a smart city housing project tender. The documentation must include architectural plans, environmental sustainability certifications, construction timelines, and financing proof from banks. Goal: Draft a tender preparation guide for real estate infrastructure projects. Prompt: "**You are** a real estate procurement advisor. Draft a documentation checklist for bidding on a government housing project, covering: detailed architectural drawings, green building certifications, project financing proofs, construction timelines, and quality control procedures." Inputs Required from User: Number of housing units Sustainability certifications Financing partners Construction capacity

92. Prompt 17 — Airport Ground Handling Tender Guide

Airport Ground Handling Tender Guide Backstory: An aviation service company in Delhi is applying for a tender to manage ground handling services at an international airport. The tender demands proof of DGCA approvals, equipment lists, safety training programs, and service quality standards. Goal: **Create** a tender guide for airport ground handling contracts. Prompt: "**You are** an aviation service tender consultant. Draft a documentation checklist for an airport ground handling tender, covering: DGCA approvals, equipment inventory, staff training records, service quality KPIs, and safety compliance protocols." Inputs Required from User: Airport name & capacity Ground handling equipment list Staff size & certifications Past airport service contracts

93. Prompt 18 — Mining Operation Tender Guide

Mining Operation Tender Guide Backstory: A mining firm in Odisha wants to bid for a government coal mining contract. The tender requires environmental impact assessments, land acquisition approvals, mining safety plans, and heavy equipment deployment schedules. Goal: Prepare a tender documentation checklist for mining projects. Prompt: "**You are** a mining project tender expert. Draft a documentation checklist for coal mining contracts, covering: environmental clearance certificates, land acquisition documents, mining safety plans, heavy machinery deployment schedules, and workforce training protocols." Inputs Required from User: Type of

mineral Mine location & size Machinery available Safety certifications

94. Prompt 19 — Telecom Network Expansion Tender Guide

Telecom Network Expansion Tender Guide Backstory: A telecom company in Gurugram is bidding for a state government tender to expand 5G infrastructure in rural areas. The tender asks for network deployment plans, equipment sourcing details, regulatory compliance proofs, and projected coverage maps. Goal: Draft a documentation guide for telecom infrastructure tenders. Prompt: "**You are** a telecom procurement consultant. Draft a tender documentation checklist for 5G rural network expansion, covering: network rollout plans, vendor equipment certifications, DoT compliance documents, projected coverage maps, and maintenance schedules." Inputs Required from User: Network area coverage target Equipment suppliers DoT compliance status Maintenance strategy

95. Prompt 20 — Educational Institution Infrastructure Tender Guide

Educational Institution Infrastructure Tender Guide Backstory: An architecture firm in Kolkata is applying for a tender to design and build a government university campus. The tender requires master plans, structural safety certifications, project timelines, and budget proposals. Goal: **Create** a tender guide for educational infrastructure projects. Prompt: "**You are** an educational infrastructure consultant. Draft a tender documentation checklist for designing and constructing a university campus, covering: master plans, structural safety approvals, green building certifications, phased timelines, and detailed budget estimates." Inputs Required from User: Campus size & facilities Sustainability plans Safety compliance documents Budget breakdown

96. Prompt 21 — Logistics & Warehousing Tender Guide

Logistics & Warehousing Tender Guide Backstory: A logistics company in Ahmedabad wants to bid for a central government tender to manage a nationwide warehouse network for food grain storage. The tender includes requirements for storage capacity proofs, temperature control technology, pest management protocols, and delivery schedules. Goal: Prepare a tender documentation guide for logistics and warehousing services. Prompt: "**You are** a logistics tender specialist. Draft a documentation checklist for managing government food grain warehouses, covering: storage capacity certifications, temperature & humidity control technology details, pest control SOPs, delivery timelines, and staff deployment plans." Inputs Required from User: Number & size of warehouses Storage tech specifications Pest control vendor details Delivery capabilities

97. Prompt 22 — Port & Shipping Tender Guide

Port & Shipping Tender Guide Backstory: A shipping company in Kochi is bidding for a tender to operate container handling services at a major port. The tender requires equipment capability reports, staff certifications, safety compliance documentation, and cargo handling efficiency metrics. Goal: Draft a tender guide for port service contracts. Prompt: "**You are** a maritime procurement advisor. Draft a tender documentation checklist for operating container handling services, covering: equipment capability reports, safety compliance documentation, crew training records, cargo handling efficiency metrics, and operational cost breakdowns." Inputs Required from

User: Port location & capacity Equipment list Crew certifications Safety compliance status

98. Prompt 23 — Public Sanitation Tender Guide

Public Sanitation Tender Guide Backstory: A facilities management company in Jaipur is bidding for a municipal tender to maintain public toilets across the city. The tender requires cleaning schedules, waste disposal methods, water supply management, and public feedback systems. Goal: Prepare a tender documentation checklist for public sanitation projects. Prompt: "**You are** a public sanitation tender consultant. Draft a documentation checklist for maintaining public toilets, covering: cleaning & maintenance schedules, waste disposal protocols, water supply arrangements, staff deployment, and grievance redressal mechanisms." Inputs Required from User: Number of facilities Cleaning frequency Waste disposal arrangements Staff details

99. Prompt 24 — Agriculture Supply Tender Guide

Agriculture Supply Tender Guide Backstory: A seed supplier in Lucknow is applying for a state agriculture department tender to supply hybrid seeds to farmers. The tender requires seed quality certifications, distribution logistics, farmer training programs, and after-sales support plans. Goal: Draft a tender documentation guide for agriculture supply contracts. Prompt: "**You are** an agriculture procurement expert. Draft a tender documentation checklist for supplying hybrid seeds, covering: seed quality certifications, distribution logistics plans, farmer training programs, after-sales support strategies, and payment terms." Inputs Required from User: Seed types & varieties Certification status Distribution network details Training program plans

100. Prompt 25 — Disaster Management Tender Guide

Disaster Management Tender Guide Backstory: A relief services company in Patna is bidding for a government tender to supply emergency shelters during floods. The tender needs product durability reports, delivery timelines, disaster response training plans, and post-disaster maintenance commitments. Goal: **Create** a tender documentation checklist for disaster management services. Prompt: "**You are** a disaster management procurement advisor. Draft a tender documentation checklist for supplying flood relief shelters, covering: product durability certifications, rapid deployment timelines, disaster response staff training plans, and post-disaster maintenance commitments." Inputs Required from User: Shelter capacity & specifications Delivery lead time Staff training details Maintenance strategy

Legal, Compliance & Policy Advisory

101. Prompt 1 — Summary of Landmark Supreme Court Judgment on Data Privacy

Summary of Landmark Supreme Court Judgment on Data Privacy Backstory: A Bengaluru-based healthtech startup is developing a telemedicine app that will store patient health records in the cloud. The legal head wants a concise yet comprehensive summary of the Justice K.S. Puttaswamy vs. Union of India judgment (2017), where the Supreme Court declared the Right to Privacy as a

fundamental right. This summary will help the product team understand the legal implications for data handling under Indian constitutional law. Goal: Produce a legal research summary highlighting the case background, key constitutional principles, and practical business implications for startups handling sensitive personal data. Prompt: "**You are** a legal research analyst. Draft a structured summary of the Supreme Court's 2017 Puttaswamy judgment, covering: case facts, arguments from both sides, key findings, constitutional articles invoked, legal reasoning, and the verdict. **Include** a section on implications for businesses handling sensitive personal data under Indian law. Use plain English while retaining accuracy." Inputs Required from User: Intended audience (lawyers, executives, product managers) Sector of business (e.g., healthtech, fintech, e-commerce) Depth level (brief, detailed, exhaustive)

102. Prompt 2 — Summary of Arbitration Act Amendments (2015, 2019, 2021)

Summary of Arbitration Act Amendments (2015, 2019, 2021) Backstory: A mid-sized construction company in Noida is regularly involved in contractual disputes and often opts for arbitration instead of lengthy litigation. Their in-house counsel wants a clear research summary of all recent amendments to the Arbitration and Conciliation Act to ensure contracts are aligned with the latest legal provisions. Goal: Prepare a concise yet actionable summary of the Arbitration Act amendments and how they change dispute resolution practices for Indian companies. Prompt: "**You are** a corporate legal researcher. **Create** a comparative summary of the 2015, 2019, and 2021 amendments to the Arbitration and Conciliation Act, highlighting: changes in timelines, appointment of arbitrators, confidentiality provisions, institutional arbitration rules, and enforcement of awards. Conclude with a section on best practices for contract drafting post-amendments." Inputs Required from User: Type of contracts company handles Frequency of arbitration usage Jurisdiction of operations

103. Prompt 3 — Summary of Labour Codes Impact on IT Companies

Summary of Labour Codes Impact on IT Companies Backstory: A Pune-based IT services firm with 1,200 employees is reviewing its HR policies in light of India's new Labour Codes (Wages, Social Security, Occupational Safety, Industrial Relations). The HR head wants a clear research summary to align policies with legal requirements and avoid penalties. Goal: Generate a legal research summary focusing on how the new Labour Codes affect IT companies' compliance obligations. Prompt: "**You are** an employment law researcher. Draft a summary of India's four new Labour Codes, covering: key provisions, changes from old laws, applicability to IT/ITES sector, employer obligations, employee benefits, and penalty provisions. **Include** a checklist for HR policy updates specific to IT companies." Inputs Required from User: Current HR policy framework Employee strength Locations of operation

104. Prompt 4 — Summary of GST E-Invoicing Rules for SMEs

Summary of GST E-Invoicing Rules for SMEs Backstory: A Jaipur-based SME in the textile export business is required to implement GST e-invoicing from the next financial quarter. The finance manager wants a simple, legally accurate summary of the latest e-invoicing provisions to train the accounts team. Goal: Produce a legal summary of GST e-invoicing provisions applicable to SMEs, with compliance steps. Prompt: "**You are** a tax law researcher. Summarise the GST e-invoicing provisions, covering: eligibility thresholds, mandatory invoice fields, reporting timelines, IRN

generation process, integration with ERP, penalties for non-compliance, and export invoice requirements. **Provide** an easy-to-follow implementation checklist." Inputs Required from User: Annual turnover figures Export/import activities Current invoicing process

105. Prompt 5 — Summary of Indian Competition Act Provisions for M&A;

Summary of Indian Competition Act Provisions for M&A Backstory: A Mumbai-based private equity firm is evaluating the acquisition of a mid-sized manufacturing company. The legal team needs a research summary on Competition Commission of India (CCI) provisions for mergers and acquisitions to assess whether the deal requires CCI approval. Goal: **Create** a legal research note summarising the Competition Act provisions on mergers and acquisitions, focusing on deal thresholds and approval timelines. Prompt: "**You are** an M&A legal analyst. Draft a research summary on CCI regulations for mergers and acquisitions under the Competition Act, covering: asset and turnover thresholds, notification process, scrutiny timelines, exemption criteria, and penalties for non-compliance. **Include** a decision tree to help determine if a deal requires CCI approval." Inputs Required from User: Estimated deal value Sector of target company Presence in domestic vs. international markets

106. Prompt 6 — Summary of FEMA Regulations for Startups Receiving Foreign Investment

Summary of FEMA Regulations for Startups Receiving Foreign Investment Backstory: A Delhi-based SaaS startup has secured interest from a Singapore-based VC firm. Before finalizing the investment, the founder needs to understand the relevant provisions of the Foreign Exchange Management Act (FEMA) and RBI guidelines for foreign direct investment (FDI) in Indian startups. This summary will guide them in structuring the investment without triggering compliance issues. Goal: Summarise FEMA and RBI guidelines on FDI for startups in plain, actionable terms. Prompt: "**You are** a startup legal advisor. Draft a legal research summary of FEMA and RBI regulations for FDI in Indian startups, covering: eligible sectors, automatic vs. government approval routes, share valuation requirements, reporting to RBI (FC-GPR/FC-TRS), timelines for fund receipt and allotment, and penalties for non-compliance. **Include** a step-by-step compliance checklist." Inputs Required from User: Sector in which startup operates Amount of proposed investment Country of investor's origin Current company valuation

107. Prompt 7 — Summary of SEBI Insider Trading Regulations for Listed Companies

Summary of SEBI Insider Trading Regulations for Listed Companies Backstory: A newly listed company on the NSE wants to train its leadership team on the Prohibition of Insider Trading Regulations issued by SEBI. The compliance officer needs a concise research summary to explain permissible and prohibited activities, reporting obligations, and penalties. Goal: **Create** a research note on SEBI insider trading rules for listed companies. Prompt: "**You are** a securities law researcher. Prepare a structured summary of SEBI's Prohibition of Insider Trading Regulations, covering: definition of unpublished price sensitive information (UPSI), trading window restrictions, disclosure requirements, role of compliance officers, penalties for violations, and preventive measures. **Include** examples of compliant vs. non-compliant scenarios." Inputs Required from User: Industry sector of the listed company Number of designated employees covered Current

compliance monitoring practices

108. Prompt 8 — Summary of Environmental Clearance Rules for Real Estate Projects

Summary of Environmental Clearance Rules for Real Estate Projects Backstory: A real estate developer in Gurugram plans to build a large residential township. Before starting construction, they need to comply with environmental clearance norms under the EIA Notification, 2006 and subsequent amendments. The legal team wants a concise summary to avoid project delays or fines. Goal: Summarise environmental clearance requirements for large real estate developments. Prompt: "**You are** an environmental law researcher. Draft a legal research summary on environmental clearance rules for real estate projects in India, covering: applicability thresholds, documents required for EC application, environmental impact assessment process, public consultation procedures, compliance reporting timelines, and consequences of non-compliance." Inputs Required from User: Project size (land area and built-up area) Location (state and city) Type of real estate project (residential/commercial/mixed-use)

109. Prompt 9 — Summary of Cybercrime Laws Relevant to E-commerce Platforms

Summary of Cybercrime Laws Relevant to E-commerce Platforms Backstory: An e-commerce company based in Mumbai is expanding into high-value electronics sales. With increasing cyber fraud cases, the CTO wants a summary of cybercrime laws under the IT Act, 2000 and related provisions of the Indian Penal Code to strengthen the platform's legal safeguards. Goal: **Provide** a legal research summary of applicable cybercrime laws for e-commerce platforms. Prompt: "**You are** a cyber law analyst. Prepare a summary of cybercrime-related provisions in the IT Act, 2000 and IPC applicable to e-commerce platforms, covering: identity theft, phishing, hacking, data breaches, cyber fraud, intermediary liability, and reporting obligations. **Include** preventive compliance measures and incident response steps." Inputs Required from User: Nature of products sold Volume of monthly transactions Current cybersecurity measures in place

110. Prompt 10 — Summary of Intellectual Property Laws for Digital Content Creators

Summary of Intellectual Property Laws for Digital Content Creators Backstory: An independent content creator in Mumbai produces educational videos and is concerned about unauthorized copying and re-uploading of her content. She wants a legal research summary of copyright and trademark protections available in India for online creators. Goal: Summarise Indian IP laws relevant to digital content creators in simple, actionable terms. Prompt: "**You are** an IP law researcher. Draft a legal research summary of copyright, trademark, and design protections for digital content creators in India, covering: registration process, scope of protection, enforcement mechanisms, takedown procedures under the IT Act, and remedies for infringement." Inputs Required from User: Type of content produced (videos, images, articles) Whether the content is monetized Platforms used for distribution

111. Prompt 11 — Summary of Consumer Protection Act Provisions for E-Commerce

Summary of Consumer Protection Act Provisions for E-Commerce Backstory: A Bengaluru-based online fashion marketplace has recently received multiple complaints from customers regarding delayed deliveries and misleading product descriptions. The legal team wants a crisp but comprehensive research summary of the Consumer Protection Act, 2019 provisions applicable to e-commerce businesses to ensure compliance and avoid penalties from the Central Consumer Protection Authority (CCPA). Goal: **Provide** a business-friendly legal research summary of the CPA, 2019 e-commerce provisions. Prompt: "**You are** a consumer law analyst. Draft a structured summary of the Consumer Protection Act, 2019 and related E-commerce Rules, covering: liability for misleading ads, refund and replacement obligations, disclosure requirements, grievance redressal mechanisms, penalty provisions, and the role of the CCPA. **Include** a compliance checklist for e-commerce sellers and marketplaces." Inputs Required from User: Product categories sold Current grievance redressal process Average monthly order volume

112. Prompt 12 — Summary of Motor Vehicles Act Changes for Logistics Companies

Summary of Motor Vehicles Act Changes for Logistics Companies Backstory: A logistics company operating across North India is updating its compliance manuals after the 2019 amendments to the Motor Vehicles Act. The operations head needs a legal research summary to train drivers, fleet managers, and compliance officers on new safety standards and penalties. Goal: Summarise the Motor Vehicles Act amendments with a focus on logistics operations. Prompt: "**You are** a transport compliance researcher. Prepare a summary of the Motor Vehicles (Amendment) Act, 2019, highlighting: revised penalty amounts, fitness certification norms, driver training requirements, vehicle tracking mandates, insurance provisions, and goods carriage regulations. **Provide** a table mapping old vs. new penalties for easy reference." Inputs Required from User: Fleet size and vehicle types Routes and states of operation Current safety and compliance measures

113. Prompt 13 — Summary of RERA Provisions for Real Estate Developers

Summary of RERA Provisions for Real Estate Developers Backstory: A mid-sized property developer in Hyderabad is planning to launch two new residential projects and wants to ensure full compliance with the Real Estate (Regulation and Development) Act, 2016 (RERA). The marketing team also needs clarity on permissible advertising claims under the Act. Goal: **Create** a RERA compliance research summary for developers. Prompt: "**You are** a real estate law specialist. Draft a legal research summary of RERA provisions applicable to developers, covering: project registration process, escrow account requirements, disclosure norms, timelines for possession, penalty provisions, and restrictions on marketing claims. **Include** a compliance timeline from project conception to handover." Inputs Required from User: State of project location Number of units planned Estimated project value

114. Prompt 14 — Summary of SEZ Rules for Export-Oriented IT Companies

Summary of SEZ Rules for Export-Oriented IT Companies Backstory: An IT services firm operating from an SEZ in Chennai wants to expand its export operations. The CFO has requested a summary

of SEZ rules, benefits, and compliance requirements to ensure smooth expansion without risking the loss of SEZ incentives. Goal: Summarise SEZ rules and compliance requirements for IT companies. Prompt: "**You are** a trade and export compliance researcher. Prepare a structured summary of SEZ Act and Rules provisions applicable to IT/ITES companies, covering: eligibility criteria, tax incentives, customs duty exemptions, performance obligations, reporting requirements, and exit procedures. **Include** a risk matrix for non-compliance." Inputs Required from User: Size of SEZ unit (employees and floor area) Annual export turnover Countries served

115. Prompt 15 — Summary of Factories Act Compliance for Manufacturing SMEs

Summary of Factories Act Compliance for Manufacturing SMEs Backstory: A small-scale engineering goods manufacturer in Ludhiana has recently increased its workforce from 15 to 45 employees, triggering additional compliance obligations under the Factories Act. The owner wants a research summary to understand safety, welfare, and working hours requirements. Goal: Summarise the Factories Act compliance obligations for SMEs. Prompt: "**You are** an industrial law researcher. Draft a legal research summary of the Factories Act provisions applicable to SMEs, covering: worker safety measures, working hours and overtime limits, welfare amenities, health inspections, annual return filings, and penalty provisions. **Include** a compliance calendar for SMEs." Inputs Required from User: Industry type Total number of employees Factory location and state

116. Prompt 16 — Summary of Prevention of Sexual Harassment (POSH) Act Compliance

Summary of Prevention of Sexual Harassment (POSH) Act Compliance Backstory: A growing media company in Mumbai with 60 employees is updating its workplace policies and wants a research summary on POSH Act requirements to implement an Internal Committee and awareness programs. Goal: Summarise POSH Act compliance requirements for private companies. Prompt: "**You are** an employment compliance researcher. Prepare a legal research summary on the POSH Act, covering: constitution of the Internal Committee, roles and responsibilities, complaint handling process, confidentiality provisions, employer obligations, annual reporting requirements, and penalties for non-compliance. **Include** a model awareness program outline." Inputs Required from User: Number of employees Presence of multiple branches or offices Existing HR grievance mechanisms

117. Prompt 17 — Summary of CSR Compliance under Companies Act

Summary of CSR Compliance under Companies Act Backstory: A listed pharmaceutical company in Ahmedabad wants to revise its CSR activities for the upcoming year. The CSR head needs a legal research summary to ensure compliance with Section 135 of the Companies Act and recent amendments. Goal: Summarise CSR obligations and reporting requirements. Prompt: "**You are** a corporate law researcher. Draft a structured summary of CSR provisions under the Companies Act, covering: eligibility thresholds, minimum spending requirements, approved CSR activities, reporting formats, unspent CSR amount treatment, and penalties. **Provide** examples of compliant CSR projects in the pharmaceutical sector." Inputs Required from User: Average net profit over the last 3 years Current CSR focus areas Geographic scope of CSR projects

118. Prompt 18 — Summary of Income Tax Provisions for Freelancers

Summary of Income Tax Provisions for Freelancers Backstory: A graphic designer based in Pune works with clients across India and abroad. She wants a legal research summary on her tax obligations, deductions available, and GST applicability to her freelancing work. Goal: **Provide** a freelancer-specific tax compliance summary. Prompt: "**You are** a tax law researcher. Prepare a legal research summary of income tax provisions applicable to freelancers in India, covering: tax slab applicability, advance tax rules, allowable deductions, GST registration thresholds, invoicing requirements, and foreign payment tax treatment under DTAA." Inputs Required from User: Annual turnover Type of services provided Domestic vs. foreign client split

119. Prompt 19 — Summary of Data Retention Laws for Financial Institutions

Summary of Data Retention Laws for Financial Institutions Backstory: A mid-sized NBFC in Delhi wants to upgrade its IT systems to align with RBI data retention and reporting requirements. The compliance team needs a legal research summary to guide system changes. Goal: Summarise RBI data retention guidelines for NBFCs and banks. Prompt: "**You are** a financial regulatory researcher. Draft a legal research summary of data retention requirements for Indian financial institutions, covering: retention timelines, permitted formats, confidentiality provisions, customer data disposal guidelines, and penalties for premature deletion." Inputs Required from User: Type of financial institution Volume of customer data stored Current IT infrastructure

120. Prompt 20 — Summary of Labour Law Applicability for Gig Economy Platforms

Summary of Labour Law Applicability for Gig Economy Platforms Backstory: A Bengaluru-based ride-hailing app is reviewing its worker classification policies in light of ongoing debates on gig worker rights. The legal team wants a research summary of labour law applicability to gig platforms. Goal: Summarise Indian labour law implications for gig economy companies. Prompt: "**You are** a labour law policy researcher. Prepare a legal research summary on the applicability of Indian labour laws to gig workers, covering: minimum wage applicability, social security benefits, insurance obligations, contract structuring, and state-level policy developments." Inputs Required from User: Type of gig platform (delivery, transport, freelance marketplace) Number of active gig workers Revenue model

121. Prompt 21 — Summary of Foreign Trade Policy Provisions for Export Startups

Summary of Foreign Trade Policy Provisions for Export Startups Backstory: A handicraft export startup in Jaipur wants to expand to new markets. The founder needs a research summary of India's Foreign Trade Policy to identify incentives and compliance obligations. Goal: Summarise Foreign Trade Policy provisions for small exporters. Prompt: "**You are** a trade policy researcher. Draft a legal research summary of India's Foreign Trade Policy, covering: export promotion schemes, duty drawback provisions, export documentation requirements, eligibility for SEIS benefits, and DGFT compliance." Inputs Required from User: Product category Export volume

Target markets

122. Prompt 22 — Summary of Patents Act for Technology Startups

Summary of Patents Act for Technology Startups Backstory: A deep-tech startup in Hyderabad has developed a novel AI algorithm and wants to explore patent protection in India. The CTO needs a legal research summary of the Patents Act and filing process. Goal: Summarise patent law provisions for Indian tech startups. Prompt: "**You are** an IP law researcher. Prepare a summary of the Indian Patents Act provisions relevant to technology startups, covering: patentability criteria, filing process, provisional vs. complete specification, timelines, examination procedures, and infringement remedies." Inputs Required from User: Type of innovation Stage of development (prototype/pilot) Planned filing jurisdictions

123. Prompt 23 — Summary of FEMA Provisions on Overseas Direct Investment (ODI)

Summary of FEMA Provisions on Overseas Direct Investment (ODI) Backstory: An Indian healthcare company is planning to acquire a minority stake in a UK-based wellness chain. The CFO wants a legal research summary of FEMA provisions on ODI. Goal: Summarise ODI compliance requirements for Indian companies. Prompt: "**You are** a foreign exchange law analyst. Draft a legal research summary of FEMA provisions on ODI, covering: eligibility criteria, investment limits, approval requirements, reporting to RBI, repatriation rules, and penalties." Inputs Required from User: Investment amount Destination country Nature of investment (equity, JV, WOS)

124. Prompt 24 — Summary of Insolvency and Bankruptcy Code (IBC) Provisions for SMEs

Summary of Insolvency and Bankruptcy Code (IBC) Provisions for SMEs Backstory: A small manufacturing company in Gujarat is facing cash flow problems and wants to explore restructuring options under the IBC. The founder needs a legal research summary. Goal: Summarise IBC provisions applicable to SMEs. Prompt: "**You are** a corporate insolvency researcher. Draft a legal research summary of IBC provisions for MSMEs, covering: applicability thresholds, pre-pack insolvency process, timelines, creditor rights, resolution plan requirements, and liquidation provisions." Inputs Required from User: Company size (turnover and debt) Type of creditors involved Restructuring objectives

125. Prompt 25 — Summary of DPDP Act for Mobile App Developers

Summary of DPDP Act for Mobile App Developers Backstory: An app development company in Pune creates lifestyle and health tracking apps that collect user data. The product head needs a research summary on the Digital Personal Data Protection (DPDP) Act to align product features with legal obligations. Goal: Summarise DPDP Act compliance requirements for app developers. Prompt: "**You are** a data privacy law researcher. Draft a legal research summary of the DPDP Act, covering: user consent requirements, purpose limitation, data minimisation, retention timelines, user rights handling, breach notification, and penalties. **Include** best practices for app-based consent flows." Inputs Required from User: Type of user data collected Number of active users Whether

data is shared with third parties
